thoughts are not new and if his material appears to be somewhat sensational, it is only because individuals who might read it are not particularly familiar with the subject. While cannot in fact prove much of his material, the writer and his associates will support most of his allegations and ideas on the basis of their experimentation.

3. On the basis of the material at hand, the writer feels that those in the Training Division who are interested in this field should be referred to your Office for general discussions in these matters since your Staff has worked in this field for over three years, is familiar with the literature and has worked with and has continuously been in contact with professional consultants in hypnotism. It is believed that your advice, and recommendations and assistance, should be considered before any outside Agency activity be undertaken in this direction.

4. In compliance with your request, we have written to for information and his views in the above matter and his reply should be here in the immediate future.
