

MEMORANDUM TO : Executive Secretary
CIA Management Committee

SUBJECT @ Drug Testing Program

1. The attached summary from ORD describes research into a behavioral drug. Conversations with Carl Duckett indicate that the reported drug was part of a larger program in which ~~whereby~~ the Agency had relations with commercial drug manufacturers, whereby they passed on drugs rejected because of unfavorable side effects. The drugs were screened with the use of ADP equipment, and those selected for experimentation were tested at

using monkeys and mice. Materials having ~~of~~/further interest, as demonstrated by this testing, were then tested at Edgewood, using volunteer members of the Armed Forces.

2. The program was terminated last fall. The computer program remains in the machine, its final disposition not yet having been decided.

3. Carl Duckett emphasizes that the program was considered as defensive, in the sense that we would be able to recognize certain behavior if similar materials were used against Americans.
