

QUESTION:

g. What do we know about a [redacted] local telephone number 965-9598? Apparently the Bureau has established that this is an Agency number.

(b)(3)

ANSWER:

[redacted] probably refers to an Agency electronics engineer, involved in research and development activities for the Agency, who used the telephone number 965-9598 during the summer of 1971. This number is no longer in use. [redacted] provided Mr. Hunt with a Uher commercial stereo tape recorder on 20 August 1971. He was also given a padded portable typewriter case as a minimal concealment cover for the recorder. [redacted] understanding of Mr. Hunt's requirement was that Mr. Hunt planned to use the recorder openly and only wanted the typewriter case to facilitate inconspicuous transport of the recorder. These items were provided to him on the understanding that they were required in connection with his official duties. The Agency is not aware of the purpose for which these items were intended or used.
