## Deputy Director's Staff Meeting

Tuesday, 16 January 1951

Mr. Reber reported that he had talked to [redacted] of O/PC who will, in turn, consult with Alan Evans of State concerning O/PC requirements for intelligence support. O/PC has made a list of their requirements that they served on O/RE and the results obtained. [redacted] says he may need a staff of three to six persons to handle Requirements.

There was discussion of essential elements of information on Atomic Energy and where Requirements should be located. It was reported that [redacted] is preparing a study of Requirements after which a decision can be made on where they will be located in the agency.

It was decided that the letters to the State Department would be prepared by the Staff and then sent to Mr. Millikan for approval.

Mr. Reber reported that he had been discussing NSC/29 with Fisher Howe. Mr. Jackson stated that he wished an early decision to be reached on this subject.

Mr. Reber reported that he planned to talk with Fisher Howe about the question of CIA's sending representatives to foreign conferences of the State Department. Mr. O'Gara suggested that the discussion cover broad phases of policy without being restricted to this one subject.

Mr. [redacted] reported that a communications school and a small training school will be established immediately in the new area.

Mr. Jackson reported that a policy determination had been made at the IAC meeting yesterday when General Cabell had requested to put in a supplemental paper with an estimate that was neither a consent nor a concurrence. The decision was that such supplemental paper should not be issued with the estimates.
