TOP SECRET

Daily Staff Meeting

Friday, 16 February 1951

McConnel asked what Administration was to make available for the Joint Chiefs of Staff briefing. Told him the General did not wish to get into details of the size of support for guerrilla operations and suggested that they limit their requirements to O/SO.

Mr. Reber pointed out that in Dr. Millikan's report to the IAC he stated that O/RR coordinated economic intelligence in the government and that no one had taken exception to this statement.

[redacted] said that he was working on the procedures to be followed by senior representatives prior to departure.

Mr. McConnel asked that all comments on the training course be sent to his office.
