~~TOP SECRET~~

Noted by D. BBJ

OFFICIAL DIARY

Monday, 16 July 1951

Mr. Reber reported that Admiral Johnson wants to set up an inter-agency committee to determine priorities for covert field collection. Reber will discuss this with SO.

Asked Reber to talk to Air Force once more and make sure that General Cabell will not want to discuss the Atomic paper at the next IAC meeting.

Talked to Reber again about our contribution to NSC 68/4. He will discuss this with and then talk to State Department and the Services not to FBI and AEC.

informed me that any JCS policy papers of interest to us will be hand carried to to read but will not be left with him. will keep PC informed through I will speak to Mr. Wisner and get him to tell that this is approved.

Mr. Reber would like to have copies of inter-agency letters. After some discussion he has agreed to speak to the individual assistant directors in hopes that they will furnish him copies.
