DAILY STAFF MEETING

Monday, 30 July 1951

#jm  
[Signature]

Mr. Reber noted that NIE's 25 and 38 would be discussed at the IAC Meeting today.

[redacted] reported that a system was being devised whereby CIA would send a Weekly Intelligence Summary to our Senior Representatives abroad. [redacted] will deliver his copy to Colonel Schow, who in turn will show it to Generals Eisenhower and Gruenther. This led to the discussion as to whether we were not in fact competing with the Weekly Summary which is prepared by G-2 for General Eisenhower. [redacted] both noted that any intelligence summary produced by CIA might well be in competition with G-2. However, General Eisenhower has specifically reported to Mr. Dulles that he had not seen anything from CIA other than estimates, and did desire to receive pertinent information pertaining to his area from CIA. It was noted that [redacted] is presently sending a brief daily report on operational matters. [redacted] stated that OCI was preparing a dry run which is to be shown to the DCI for his approval.

HR70-14

[redacted] reported that an individual of OPC apparently had a mental breakdown Saturday afternoon and it was necessary to place him temporarily in [redacted] Hospital. He also reported that our office Duty Officer system did not appear to be functioning, since the CIA Duty Officer was not able to contact the proper authorities in OPC. (NOTE: CIA Regulations require that each office notify the CIA Duty Officer where responsible individuals may be reached at all times.) [redacted] also noted that a plan was being drawn up to handle any future cases of this nature, which will include action on the part of the Medical staff, Security and the AD concerned.

Mr. Reber again raised the question of the Agenda to be discussed at the AD's meeting. [redacted] stated that he had discussed this matter with the D/DCI and would discuss it further with the DCI.
