DAILY STAFF MEETING

Tuesday, 31 July 1951

HR70-14

[] noted that General Gruenther was in town and would in all probability see the DCI before he returned to Europe. The Director plans to discuss with General Gruenther our various intelligence summaries, in order to determine what will best fill the need of General Eisenhower. [] also noted that we were receiving a number of low-level reports regarding anti-Titoism in Yugoslavia. It is believed that these reports may be, in all probability, planted and the DCI has requested further information in this regard.

[] stated that Admiral Carney was in Washington and asked whether any of our offices had scheduled meetings with him -- [] Mr. Becker will check this.

Mr. Reber reported that Colonel Putnam of the JIG has stated that it was the feeling of his committee that furnishing intelligence to SHAPE was strictly a military matter. Mr. Reber has discussed this matter briefly with General Partridge, who will discuss it with the JIC and recommend that it be brought before the IAC. Mr. Reber will give a further report in the near future.

Mr. Reber also noted that nothing had been received from [] regarding intelligence support for that office. OPC has furnished a very fine report. If nothing is heard from [] in the next day or two, Mr. Reber is to call Mr. Kirkpatrick.

Mr. Becker stated that Mr. Wisner desired to hold daily staff meetings in his office and suggested that possibly the ~~Director's~~ Staff Meeting, conducted by [] could be limited to two days a week in order that the representatives from DD/P could be better prepared to inform those present of projects and problems concerning the operational offices. After considerable discussion, wherein it was pointed out that our present system of staff meetings was beneficial and informative, it was decided that [] would hold his staff meetings as heretofore, and that the representatives from DD/P could be present whenever possible.
