Called Mr. Reber to find out what had happened to the paper on the Reorganization of Intelligence. This is being prepared by State Department and a draft should be ready the middle of next week.

HR70-14

If there is an Assistant Directors' meeting on Monday, Mr. Reber would like to discuss the Interagency Priority Committee. This is the new committee set up to deal with covert requirements.

Talked to Mr. Dickson, O/PC, about administrative support for a senior representative in Teheran. Called Doug Andrews and asked him to set up a T/O after talking to Dickson. Told Andrews that I did not believe T/O and support should be on the same scale as that for our other senior representatives.
