HR70-14

DAILY STAFF MEETING

Tuesday, 4 September 1951

[redacted] noted that:

(a) [redacted] had been requested by OCI to submit timely reports on the forthcoming Japanese Peace Treaty meeting, and also that the Director was endeavoring to contact Rear Admiral L. C. Stevens,

(b) [redacted]

(c) [redacted]

Colonel [redacted] stated that [redacted] had been designated as the point of contact in the Director's office for all matters pertaining to NSC papers, meetings, etc., and that [redacted] in ONE would perform the same functions *in that office.*

Colonel [redacted] explained to those present the definition of the code word [redacted]. He noted that it was the responsibility of the field to so designate messages which in their opinion should be so classified. [redacted]

Mr. Reber raised the question of relations between OPC and the NSC Senior Staff. He stated that in his and OPC's opinion, OPC should have the opportunity to at least see all papers for the NSC Senior Staff and/or the Council itself, in order to make comments where such comments might be appropriate. Colonel [redacted] noted that [redacted] of ONE would possibly attend NSC Senior Staff Meetings with Mr. Dulles, and possibly it might be wise for some designated individual from OPC to do likewise. Mr. Reber is to discuss this matter with DD/P and recommendations ~~on this matter~~ will be submitted to D/DCI.

Colonel Hansen noted that:

(a) CIA comments on the President's standby speech, in case of a breakdown in the peace talks at Kaesong, had been sent to the White House on Saturday.

(b) Our draft on NSC 68 is ready for circulation to the IAC for their comments.

Mr. Harvey noted that the Director had inspected the Langley site for our new building on Friday. He did not believe that it would be suitable. It now appears that PBA will in all probability secure the Nevius tract which has the approval of DCI.
