## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

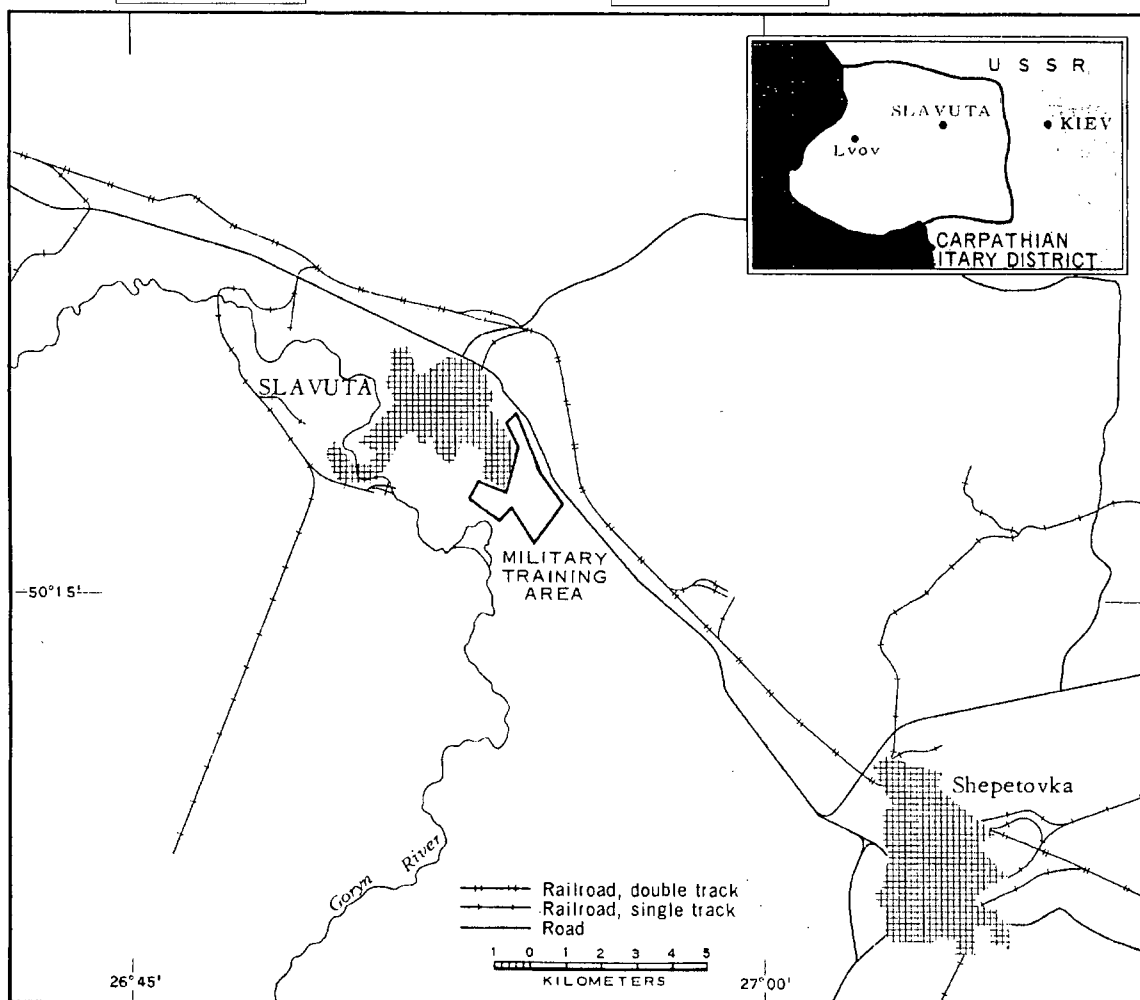

FIGURE 1. LOCATION OF MILITARY TRAINING AREA, SLAVUTA, USSR.

NPIC J-3680 (9/64)

**SUMMARY**

This military training area associated with the Shepetovka Army Barracks Slavuta [redacted] and located immediately east of Slavuta, 19 kilometers (km) northwest of Shepetovka, covers approximately 1,000 acres and contains a tracked-vehicle driver training course, two wheeled-vehicle driver training courses, two small-arms ranges, four probable flat-trajectory firing ranges, and a moving target tank firing range.

It is served by secondary roads from the Shepetovka-Rovno highway and the adjacent

barracks area, which is also served by a spur from the Berdichev-Rovno rail line.

A comparative study of the photography covering this area from April 1962 through December 1963 reveals no major change except for the addition of a probable small-arms range in November 1962 and a probable wheeled-vehicle driver-training course in June 1963. The area appears active during the summer and fall months. No activity was observed on winter coverage of December 1963.

**DESCRIPTION OF INSTALLATION**

**Railroad Service**

Rail service is probably available at Shepetovka Army Barracks Slavuta, which is served by a spur from the Berdichev-Rovno rail line.

**Road Service**

The training area is served by secondary roads from the Shepetovka-Rovno highway and the barracks area.

**Administrative and Troop Housing Area**

Shepetovka Army Barracks Slavuta is located adjacent to the western portion of the training area.

**General Storage Area**

All logistical support for the training area is probably located at Shepetovka Army Barracks Slavuta.

**Small Arms Firing Ranges**

Area L1 is a 350- by 100-foot small-arms range, first observed in April 1962.

Area L2 is a 350- by 100-foot probable small-arms range, first observed in November 1962.

**Driver Training Areas**

Area M1 is a tracked, irregular-shaped, heavily scarred closed circuit course, first observed in April 1962.

Area M2 is a wheeled-vehicle driver-training area containing two figure-8 closed circuit courses, first observed in June 1963.

Area M3 is a probable wheeled-vehicle driver training area containing one probable figure-8 closed circuit course, first observed in June 1963.

**Tank/Assault-Gun Firing Range**

Area N is a two-lane 4,500- by 2,600-foot tank/assault-gun firing range with 3 moving targets, one at 90 degrees, two at 10 degrees and one at 80 degrees, and was first observed in April 1962.

**Flat Trajectory Firing Ranges**

Area P1 is a 1,500-foot range with three probable moving 60-degree targets; area P2 is a 1,500-foot range with one probable moving 60-degree target; area P3 is a 2,100-foot range with two probable moving 60-degree targets and an impact area 1,000 feet from the firing line; and area P4 is a 2,100-foot impact area.
