## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

#### SUMMARY

This explosives storage depot is located 1.6 kilometers (km) south-southeast of Neman and approximately 1,000 yards south of the Neman military storage area (Figure 1).

The installation covers approximately 40 acres and contains 8 storage buildings, 1 administration building, 2 bunkered explosives

storage buildings, and 3 small support buildings. This site is protected by double-security fences approximately 95 feet apart (Figures 2 and 3).

This installation is active; 4 interpretable KEYHOLE missions between December 1961 and June 1964 show no changes in its facilities.

#### DESCRIPTION OF INSTALLATION

##### Road Service

The installation is served by a secondary road to Neman.

##### Ammunition Storage Area

Area F contains seven 60- by 30-foot storage buildings, one 155- by 40-foot administration building, one 160- by 40-foot storage building, two 30- by 30-foot bunkered explosives storage buildings, and 3 small support buildings.
