27 March 1968

REC'D WAS APR 4 1968

Mr. Carl Ma
Vice President
China Air Lines
Taipei

Dear Carl:

This will confirm our discussion regarding the closure and intended disposal of CAT's Sales and Reservations Offices in Manila.

We are prepared to turn over to CAL as of 1 April 1968 CAT's offices in the Filipinas Hotel together with the furniture, fixtures and office equipment. The offices are under lease and preliminary enquiry indicates the landlord is willing to permit a takeover or transfer of the leases to CAL. Office equipment, furniture and fixtures will be left as is except for the removal of certain communication equipment which is now located in the office, but will be removed as quickly as arrangements can be made. Included, and of particular interest is one direct-line telephone and one teletype machine and land line between these offices and the Philippine CAA, both of which are hard to get items. Additionally, 4 telephone drop lines are available from the Hotel switchboard. Although you may desire to make certain changes at a later date, the office is in good condition and so set up to handle airline sales and reservations functions enabling occupancy and immediate commencement of business with already installed communications. We are confident you will be unable to find moderately priced office space in Manila as well located as our Filipinas Hotel Offices.

Enclosed find an inventory listing of property items which we offer to you with the office for a package price of \$7,500. If interested in our offer, please so indicate as early as possible as we must promptly finalize our affairs in Manila and will, if we do not have your agreement before 31 March, negotiate with other parties who have expressed interest in a similar offer to the one made to CAL herein.
