MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: Project AEACRE

REFERENCE: Memorandum from C/FI signed by [] to D/DCI subject AEACRE (Renewal) dated 11 June 1954

1. In compliance with para. 4 b. of reference, the following results of the SR Division review of AEACRE functions is submitted.

2. In view of the recently announced reassignments of several of the very top division personnel, the SR review of the possibilities of redirection and expansion of DOB (AEACRE) functions has moved slowly and will not be finalized for several months. For the present, the primary DOB functions and level of activities will continue as described in the Project Amendment No. 2 for FY 1954. It is therefore requested that the 50 on-board ceiling be waived in order that personnel assignments may be permitted to come into balance with the currently approved ceilings of safehouses, motor vehicles, supplies, equipment, safehousekeepers and budget. Both the budget and T/O of 60 personnel are based on those items required to support 7 REDSOX training projects at one time.

3. DOB has considered using its facility to train certain Caucasian black penetration agents. Last month an agent under an SE project was trained at a DOB facility in conjunction with OTR staff and instructors. Such cooperation will continue so long as the precedence of REDSOX training will permit. However, no provisions for additional personnel, money nor equipment have been included in AEACRE for this purpose.

4. On 24 Sept. 1954 a meeting was held by [] Director of Training and [] to determine the relationship of OTR and DOB on training matters. Others attending were [] and [] It was agreed that DOB would remain under command of C/SR. OTR and DOB would

SECRET

SECRET

continue their present close liaison and mutual exchange of facilities and training materials. The extent of OTR staff supervision over DOB training activities would be the same as defined for overseas training bases.

5. Regarding disposal cases, it is well understood that DOB is not primarily established to handle holding and disposal cases. In the past, SR Division has taken advantage of the services of DDI/OO/Contacts Division for all such cases where security permitted, e. g. KULIKOV, GRALLSPICE I and KHOKHLOV. However in the cases of AEFILTERS I and II, and other defectors of opportunity or returned penetration agents where immediate debriefing is necessary, DOB has been the best expedient. No other facility was available with the proper security characteristics. For your information, SR has made attempts to conduct unexpected debriefings at I & S facilities which meet security requirements, however such do not exist in sufficient quantities to be available when needed. It is therefore felt that DOB be required to fill such needs on direction of Chief, SR. Due consideration, of course, will be given to the precedence of the training and preparation of agent candidates for REDSOX missions.
