RECOMMENDATIONS FOR DISCUSSION

1. Basic Plan AE-ACRE

a. The plan was approved on 22 January for the remainder of the fiscal year 1952 only. In its present limited scope, the plan provides essentially for the following material support:

- (1) Establishment of a sterile DOB Headquarters building.
- (2) Safehouse keepers (couples) for each safehouse.
- (3) Five safehouses. (Three are already operational)
- (4) Eleven sterile cars (2 per safehouse, 1 for headquarters).

a. By July 1952, the phasing out of our training facilities in Germany, combined with the increased agent recruitment in the US will cause a considerable expansion in the scope of DOB operations. DOB will thus require:

- (1) Sterile Headquarters building (paragraph II a, below).
- (2) Ten to twelve operational safehouses (preferably farmhouses in neighboring Maryland and Virginia counties. These safehouses should be surrounded by sufficient land, 50-70 acres, to provide a certain degree of isolation. The safehouses will continue to be secured through CIA Administrative Services.)
- (3) 20-30 vehicles, not necessarily new. (2 per safehouse.)
- (4) Ten to twelve I&S cleared safehouse keeper couples for cooking and maintenance of all safehouses.
