MEMORANDUM FOR: Chief, SR/SS

SUBJECT : Amendment of Table of Vehicular Allowances
for SR Project AEDEPOT

REFERENCE : Table of Vehicular Allowances for Project AEDEPOT
approved 29 October 1957 with amendment dated 5 May 1961

1. It is requested that Project AEDEPOT TVA be amended to include a $\frac{1}{4}$ ton 2-wheel cargo trailer. Recent reduction of the project TVA has necessitated an additional requirement for a $\frac{1}{4}$ ton trailer. This trailer will be utilized in supplementing the cargo capacity of the project's recently acquired $\frac{1}{4}$ ton commercial jeep. The cargo trailer desired is considered essential in rendering optimum vehicular support in the accomplishment of the objectives and goals set forth under Project AEDEPOT.

2. Since the project site is physically located at Fort Meade, it relies solely on post facilities for certain items of support. Additional cargo space is presently required for the daily pickup of rations, housekeeping, and maintenance supplies obtained through the Fort facilities. Acquisition of a $\frac{1}{4}$ ton cargo trailer would also increase the capability and potential of the project's present jeep on operational training exercises due to the substantially increased cargo capacity afforded by a trailer.

3. It has been determined that a $\frac{1}{4}$ ton 2-wheel cargo trailer under stock number 2/2330-223-4947 is presently available for issue from Agency stocks. Accordingly, it is requested that Project AEDEPOT's TVA be amended to include a $\frac{1}{4}$ ton cargo trailer.
