MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Agency elements outside SR Division

1. On 30 March 1962 an informal meeting was held at the office of [] of DC/WPS. Present were [] of WPS, [] of Office of Security and [] of SR Division.

2. The first subject discussed concerned the methods of alerting and transporting trained agents from their respective home areas to an assembly/dispatch point. [] of OS volunteered the services of OS field representatives to assist in any way possible. Suggestions and recommendations included providing in advance the respective field offices the true identities of the agents, addresses, phone numbers, DAC or military ID cards, etc. In an emergency situation the field office representative could contact agents in his area, issue ID cards, assist in obtaining necessary transportation priorities and so forth. It was felt that since this subject also involved DPD for basic transportation and Central Cover for documentation a formal meeting should be called later with representatives of DPD and CCG. [] agreed to arrange a meeting within the next few days and notify all components concerned.

3. The second subject dealt with WT communications, validity of current JCS targets in the Soviet North-East, relative sending/receiving problems in the Soviet NE/Alaska areas and Office of Communication's [] report that commo gear stockpiled in Alaska is obsolete. [] stated commo's evaluation of the equipment as "obsolete" (since it was old conventional commo equipment rather than the AS-3) did not warrant CIA refusing to accept JCS requirements in that geographical area. Rather, he felt agents tentatively slotted for targets in that area should be trained in conventional WT sending/receiving, code, etc. It was agreed that [] would call another meeting in the near future with [] and/or other OC representatives attending.

[] Chief, SR/DOB []
