MEMORANDUM FOR: DO

SUBJECT : DDP Briefing Card, Project WUDSPOT

1. The following data is provided per CA/PEG memo of 18 November 1964:

- a. Project cover is U. S. Army, specifically Training Techniques Evaluation Group (TTEG), a backstopped U. S. Army element.
- b. Training is conducted at various sites, dictated by type of training concerned: Fort Meade, Camp Pickett, Fort Bragg, Fort Campbell, ISOLATION and ISOTROPIC.
- c. Training is provided by CIA Staffers supplemented by military personnel on detail to CIA.
- d. Trained agents in reserve status are paid salary only during active training call-up periods (usually two weeks annually). In addition, each reservist is paid \$200.00 annually to compensate for expenses incurred in behalf of the program.
- e. Approximately 65% of the project budget goes for agent salaries (basic, holding costs, resettlement, reimbursement for loss of paid vacations, bonuses, salaries and jump training).

Reimbursements to the U. S. Army are on an ad hoc, need basis. Work orders in fact (renovation of buildings, heating services, etc.) are the major cause for payments such as renovation of a building at Fort Meade for use as a classroom in FY 1964, costing \$19,000.00. There are however no continuing set costs which the project is obligated to in consideration of services rendered. The only other major categories of expenditure provided for are travel of agents (5% of budget) and salaries of Contract Personnel in support capacity (28% of budget).
