Project AEMANNER SR/Frankfurt

Area of Operations: The Lithuanian SSR

1. Project AEMANNER has produced eight positive information disseminations since April 1957, one of which was considered by the Geographic Division of ORR to have been of value and two of which were said to have filled a priority intelligence need. These three disseminations reported on general living conditions, on the political, military, and general economic situation in the Lithuanian SSR, and included annotations to maps of the towns of Kaunas and Tartu, and a sketched city plan of Palanga. The remaining five disseminations reported somewhat the same type but less detailed information.

2. Rating of Production: C

3. RQM/RE perceives no objection to the termination and realignment of AEMANNER assets as proposed by the SR Division.
