DISPATCH NO. EUCA 52 1130

**SECRET**  
**SECURITY INFORMATION**

TO : Chief, USSR Desk

DATE: 11 August 1952

FROM : Chief EUCA

SUBJECT: GENERAL— Operational

SPECIFIC— Communications Briefing - REDSOX/AEQUOR

1. On 28 July 1952, the following 4 agents of the REDSOX/AEQUOR operation received their final communications briefing:

- A. CAMPOSANTO 4
- B. CAMPOSANTO 6
- C. CAMPOSANTO 8
- D. CAMPOSANTO 9

Removed from Project *AEQUOR*  
CS Classification: *74-126-44/1 thru 4*  
JOB: ~~62-860/35~~  
Box: ~~17~~ Fold: ~~2~~

2. CAMPOSANTO 4 and 9 are qualified W/T operators and will lead the W/T mission. CAMPOSANTO 6 and 8 have received limited W/T training and will be able to aid CAMPOSANTO 4 and 9 in the operation of the station.

3. We have made the following assignment of communications equipment and material to this team:

- A. One complete RS-1 station with spares kit and field generator.
- B. One primary signal plan based on LIMBER.
- C. One reserve signal plan based on EQUERRY.
- D. Sufficient cipher material for approximately one year of traffic exchange.
- E. One Homing Device for use in resupply missions.
- F. Commo danger and control signals.
- G. Equipment and cipher instructional documents.

*not in system*

4. During the briefing period, the use of the equipment, ciphers, signal plans, and danger and control signals were reviewed and the men understood and were satisfied with all arrangements.

DECLASSIFIED AND RELEASED BY  
CENTRAL INTELLIGENCE AGENCY

**IR**

**SECRET**  
**SECURITY INFORMATION**

5. We feel that this team has a good chance of success in their W/T mission in that there are two qualified W/T operators who in turn are backed up and will be assisted by two partially trained men.

6. It is our understanding that traffic from this team will receive action at MOB. LIMBER and the signal centers concerned have been advised separately of traffic handling instructions and are already in receipt of the proper commo material to handle the circuit when it becomes active.
