

SECRET
Security Information

3 November 1952

To: Chief Plans, FI
From: Chief, SR
Subject: Addendum to Project AEQUOR

DECLASSIFIED AND RELEASED BY
CENTRAL INTELLIGENCE AGENCY
SOURCE METHOD EXEMPTION 3B2B
NAZI WAR CRIMES DISCLOSURE ACT
DATE 2007

1. The "center's" primary function is to provide CIA a reserve pool of penetration agent candidates for current and future operations into the BSSR. The screening and assessing of all attending students to be conducted at this "center" will be directed and controlled by CIA in the following manner: First, all witting instructors will be assessed, cleared, and made knowledgeable upon "the need to know" basis; secondly, each applicant's name will be submitted for name checks and preliminary screening - the selection of each candidate will be approved by CIA; thirdly, continuous assessment reports will be submitted periodically by the designated instructors for evaluation by responsible case officers; and fourthly, at the completion of each school term, those students who have been favorably assessed will be interviewed and recruited by project case officers. Further CIA control will exist in the planning of the curriculum, in the selection of instructors and lecturers, and in the "center's" administrative details. Only GAMBISTA 2, the "center's" director, and one or two instructors will be knowledgeable of the "center's" true purpose: All efforts will be made to have the local population, students, lecturers, instructors, and BNR (Byelorussian National Rada) members believe the school to be a Byelorussian Political Science Academy.

2. The "center" in this manner, will provide CIA with prospective agent candidates who will have been provisionally cleared, reindoctrinated, area instructed, unwittingly assessed, and remotivated for penetration type missions. Furthermore, those students unsuitable for missions into the BSSR will be assessed for possible use as support or CE agents, as instructors, or for other tasks involved in the successful accomplishment of the United States' intelligence mission.
