DATE: 3 May 1957
INFO: EE, COS/G, FOB

SUBJECT: GENERAL— Operational/REDWOOD/AEQUOR

SPECIFIC— Transfer of AEQUOR Project to Frankfurt Operating Base

Reference: —

1. Per agreement between the Chief of Station, Frankfurt, and MOB, control and responsibility over the AEQUOR KUCAGE and KUTUBE project will be transferred to the Frankfurt Operating Base as a result of [REDACTED] transfer from MOB to FOB. The effective project transfer date will be circa 1 July 1957.

2. Inasmuch as the AEQUOR (KUCAGE) Project is basically a subsidy operation at the present time, it is envisioned that [REDACTED] will handle this Munich project from his base in Frankfurt, making the necessary trips to Munich for this purpose. As can be foreseen, this will necessitate an average of two contacts with the principals of the AECAMBISTA 1 organization per month. The principals of the AECAMBISTA 1 organization (AECAMBISTAs 4, 5 and 15) will be asked to channel their normal contacts with KUBARK through AECAMBISTA 13 with whom [REDACTED] will have regularly scheduled monthly contacts. Arrangements are being made, however, to have [REDACTED] maintain contact with AECAMBISTA 13 for any unforeseen eventuality. Similarly, arrangements will be made for AECAMBISTA 5 to establish emergency contact with [REDACTED] (in the event that there is a follow up by the RIS to contact AECAMBISTA 5).

3. In order to obviate having [REDACTED] transport the 4600 DM monthly subsidy between Frankfurt and Munich, he will be authorized to draw this sum at MOB. This sum will, however, be TA'd to Frankfurt Finance for accounting by [REDACTED] at FOB. Similarly, should the need ever arise, [REDACTED] will be authorized to draw the monthly subsidy for transmittal to AECAMBISTA 13 in lieu of [REDACTED] Advances made to [REDACTED] by MOB will likewise be transferred to Frankfurt Finance, together with the receipt from the agent.

4. Inasmuch as the MOB LCIMPROVE branch will continue to have a running interest in the AECAMBISTA 1 emigration on which coverage can be had through the AECAMBISTA 1 principals, [REDACTED] contact reports from FOB
