ACTION REQUIRED - REFERENCES

EGMA-57275, 3 January 1962

1. True to his word, ARGANDISTA-4 contacted an overt KHAHE element on 17 January, intending to pload for reconsideration of the ARQUER termination before a sonior official. He was heard out, but on the following day he was told that the termination was final and that further discussion was pointless. ARGANDISTA-4 was not satisfied with this pronouncement, and Headquarters possibly will hear more from him. However, the outlook at this point is that the termination of ARGUER will stand.

2. Headquarters considers the proposition to finance publication of two Helerussian language books as a new proposition, distinct from our previous chlightion to submidize the ANGANNISTA-1 newspaper. In view of the fact that the Field did not discourage publication of the books by flatly refusing to submidize them, the fact that the ANGANNISTAs continued publication in the justifiable hope of KUNARK submidy, the fast that we prefer the project termination to be as anicable as possible and the further fact that distribution of the books might have some solutary propagandistic effect. Headquarters has decided to submidize publication of the two books to the extent of (______, provided that ANGANNETA-1 meets the requirements set by the Field, as collined in paragraph 2 of reference.
