- 2. For the above considerations, aside from the normal requirements inherent in seeking information on SUBJECT, it is necessary that we accumulate all available information on SUBJECT from whatever sources. To-date, headquarters files on SUBJECT contain only scanty information, provided by CASSOWARY 2, who, when presenting this information, was not certain that the person he was describing was actually the SUBJECT.
- Other than CASSOWARY 2, no other sources for data on SUBJECT were tapped, although several exist. These are CASSOWARIES 3 and 6. As the undersigned remembers, CASSOWARY 3 mentioned several times that he thinks he knows SUBJECT although never positive in this identification.
