- 1. With regard to the questions on ABCASSONARY/1 REDSKIN operations in Europe posed in paragraphs 3 and 4 of Reference A, we would like to convey the following: Chief of Station, Germany currently has under study a proposal to locate ARCASSOWARY/29 permanently in Frankfurt under the close supervision of an FOB REDEKIN case officer. With Frankfurt as a base, ARCASSOWART/29 would undertake to organize selected members of the AECASSOWARY/1 collaborators and supporters in Europe into an efficient and secure operational apparatus and to apply it to the REDSKIN field, both "in" and "out."
- 2. To answer some of the specific questions asked in Reference A: AECASSONARY/29 is not only witting but has been directed to accept thorough KUBARK control and supervision. He recently completed 15 weeks of KUBARK operational and technical training and in addition received detailed briefing both on REDSKIN techniques and on REDWOOD requirements.
- 3. The proposal on ABCASSCHARY/29 now being considered by COS, Germany envisages that he could be put into direct station contact were such contact deemed appropriate and desirable by the project field case officer and the station in question. Other variations on this arrangement, including direct contact between a station and certain of AECASSUMAY/29's sub-agents, are possible.
- 4. Current ABCASSOWARY/1 operational plans require that ABCASSOWARY/29 be in Europe by about the beginning of August. He will accompany AECASHOWARY/2, the ABCASSOWARY PA, whose mission will be threefold: to introduce ABCASSOWARY/29 to various collaborators, as outlined above, to direct the group's operations at the Rome Olympics together with AECASSOWARY/29 and to mend his organizational fences.
