#### PROLOG - FOR WHAT?

There is an organization in New York, at 875 West End Avenue, which bears the name of "Prolog" - Research and Publishing Association, Inc. In this organization there are individuals of one political group known among Ukrainians as devotees of modern coexistence. They try to transmit this coexistence into Ukrainian emigre territory. They promote "coexistence of Ukrainians with anyone", and they endeavor to draw everyone to a "round table" with the Zhydy (Ukrainian word for Jews), or as they call them Evreyi (Russian for Jews), or with the Poles.

This organization is financed by one American foundation which contributes a lot of money, supposedly for research on Soviet reality in order to, as they say, understand the enemy to make possible a more effective struggle against him. (Hiding behind this same eye wash, these circles bring in Communists to universities to teach students communism.) And so, these gentlemen sit in confortable offices and "engage in research" at the expense of Ford money. This is not very difficult for them because their work boils down to reading some thirty communist, Ukrainian-language newspapers and journals published in the USSR. They read this Moscow communist propaganda, deliberate what they read and thus grow more intelligent and more realistic and, from a so-called Soviet specialist's viewpoint, make an account before their masters from what they have read.

This reaches another phase of the loyalty of "Prolog" - Research and Publishing Association, and that is the publishing (phase). They publish the journal "Prolog" sporadically; periodically, once a month, the "Digest of the Soviet Ukrainian Press"; and reportedly, this Association also publishes a "confidential" bulletin which generally is not made public but is sent only to trusted adherents - realists.

The first two publications of the Association, and particularly the "Digest" is sent gladly to anyone whether  $\longrightarrow$  wants it or not. There is a fixed fee for the Digest of \$1.50 per copy, or \$15.00 a year, but this is merely a formality because there is no insistence on payment from anyone and "subscribers" aren't bethered with financial matters, probably to allow them better opportunity to deceive the readers with the contents of their "Digest".

What other kind of marvel is this Digest of the Ukrainian Soviet Press? This is a tidily published phototype printing, approximately 30-page bulletin of English translations, and sometimes shortened articles which appear over a given period of time (usually one month) in the Soviet Ukrainian-language press. The translated articles are chosen in such a fashion so that in entirety they give an overall picture of life in the enslaved Ukraine, but a picture painted and presented by the enemy Moscow-communist propaganda. There are articles about activities of the "Ukrainian" government, about the solicitude of the Party toward the Ukrainian people; about the great progress made in Ukrainian industry, economy, education, literature and the arts, etc., etc. They publish translations from the Soviet press criticising the "plunderers of state property" and other "enemies of the people". Note is made of the publishment of those guilty of this anti-government activity; particularly, attention is drawn to such Soviet articles in which Ukrainans supposedly make demands on "the higher echelon" with respect to Ukrainian language and culture, emphasizing in this way the "great rights" of the Ukrainians, or the improvement of their position under the reign of Khrushchev. In addition, the editors of the Digest never present any commentary or any words of caution, never correct or call attention to the tendentiousness of the communist propaganda, because this would go agains the aim of their masters. In short, the Digest is suitably chosen and well-organized communist propaganda published, without the least word of caution, in the English language. This in itself is a service and an aid to communist propaganda in the West for toward which Moscow naturally would not mind contributing a few dollars to Prolog Associates.
