

FI/OPS PROJECT REVIEW FORM

Cryptonym: AENOBLE.....Division SR.....Station Germany.....

Type of Project REDSOX/REDCAP.....

Case OfficerExt. 4387.....Room 1505 J.....

New Project.....Renewal of 6.....year-old project Amendment.....

Extension for.....months.

Project approval period from 1 July 57.....to 1 Sept 58.....

Strengths:

This operation continues the handling of agents infiltrated into the USSR illegally, and in addition supports two agents recruited under the REDCAP program, who have since returned to the USSR. At present contact is maintained with four active agents. At the beginning of the last approval period, the project covered additional agents, most of whom were known to be controlled by the RIS. The last of the eight NTS-CIA agents infiltrated into the USSR in 1953, was recently surfaced by the Soviets. He had been under control for a period preceding that, however. Five agents, all old SIS cases taken over by CIA when the joint NTS-SIS-CIA center in Germany was disbanded, have been dropped for failure to produce and lack of information on them. During the past year this operation has produced valuable positive intelligence and the emphasis will continue to be on the production of such intelligence. A total of \$3,500 is requested for the renewal period.

Weaknesses:

The difficulty of providing support to these remaining agent assets will continue to be a weakness until the REDSKIN support mechanism is more fully developed.

DECLASSIFIED AND RELEASED BY
CENTRAL INTELLIGENCE AGENCY
SOURCE METHOD EXEMPTION 3B2B
KAZI WAR CRIMES DISCLOSURE ACT
DATE 2007

Recommendations:

Approval

Date of Evaluation..... 1 Aug 57.....
