Report No. 13

To-day I was in the Vatican Museums to "catch" BIRUTE KALEDIENE, who had to meet local Lithuanians there, the names of whom I knew. I saw this group of local Lithuanians, headed by a Catholic priest, there and spoke with them. After the exchange of few ordinary sentences they told me that they are expecting the above mentioned Lithuanians sportsman BIRUTE K. I stayed with them and waited, too. This was approx. at 12.00 hrs. Some of these Lithuanians decided not to wait any more and departed. There remained only this priest and one another elderly man. It appeared that they do not know BIRUTE K. personally, just by description. They often addressed women visitors there asking where they were from and whether one of them did not happen to be Birute. When Birute did not show up, after a while these two decided to leave as well. I remained alone a little longer, but I did not have any success either. I do not know, was she in the Museum that day at all or not?

To-day I was practically the whole day long at the gates to the Olympic Village. In a word, I had no luck. The persons, whom I wanted to meet, did not show up. In the evening I drove to the Hotel where I was once already, viz. VICOLO DEL CONTE 2. A young man was sitting in the Information Bureau. I learned that he was an Italina. We spoke in several languages (English, German) and somehow understood each other. He told me that tourists leave the hotel by busses at 09.00 - 10.00 hrs, going to various places according to their schedules. Dinner is served at approx. 19.00 hrs. He did not know what they do after dinner, hut most of them have to be back home at 21.00 hrs.

During this my conversation with him two elderly Russians were sitting in the corner of the same room. From the few bits of their conversation which I overheard I understood that they were complaining about their sportsmen. They said, that the boys do not obey

them, that they disappear somewhere and that one has much trouble with them. A rather stout, not a young woman, also a Russian, came in from one of the other rooms and joined these two men. I could not understand about what they were speaking, because at that time I already spoke with the information clerk. I can say about this woman the only thing that she had some kilos of powder on her face and that with her appearance the room was full of the edor of strong parfumes.

That is all about this my visit.
