Under what circumstances and how did they become interested in him?

Is he under the auspices of project "Paper Clip"?

Answers: Subject was captured by elements of the 44th Division of the U.S. Seventh Army near Reutte, Austria, in early May 1945.

This Agency is not in a position to answer the second question. It is suggested that the files of FIAT (Field Information (Activities) Technical) may contain the ~~same~~ information requested. (Perhaps Dunninger might be queried)

Project Paperclip, which was not a CIA project, was created by the Department of Defense and was designed to bring German and Austrian scientists to the United States. Subject was brought to the United States under the auspices of Paperclip ~~but~~ but it is believed that all connections which he had with Paperclip have been ended.

The above was telephoned down to Mr. Flynn of CI at 2:30 P.M. on 2 March 1959, and the case was closed.
