1. The accommodation address given in the separate cover attachment to this dispatch is fully recruited and we have a POA. We have tentatively assigned crypto CABATON 25.

2. Pertinent information useful in assignment and use of this address is the following:

Background: Skilled typewriter repair man. Born in Bonn in 1936. Avid glider pilot. Father was prominent German naval officer in World War II. Subject still interested in the Navy. Plans to emigrate to PBPRIME early in 1960. Belongs to German baseball club that plays local Army teams. Wife comes from Sudeten German family. Has few close friends. Prime interest actually centers around becoming PBPRIME citizen. Reads and writes only German and English. These items might help in suggesting cover texts.

Current Load on Address: This one is clean; has never been used.

Degree of Security: Very high. Only problem here is fact that address is in Frankfurt/Main.

Possible Use by BOB: Use your own judgment. Remember this is good for about eight or nine months.

Special Instructions: First initial is the indicator on this address.

Servicing: Should be very fast in this case. However, if coverage over the weekend and outside normal duty hours is desired, special arrangements will have to be made for agent to reach case officer at those times. Please notify us if you desire such service.

3. For BOB: Please inform us when you have made an assignment of this address and let us know when to expect test letters.

4. For EE: Please confirm assignment of cryptonwa.
