Headquarters File No.
38-6-69/3

SUBJECT: CATARSI/HIMAY/HIROYAL/CABATON
Accommodation Address for HIROYAL-2

Date:
January 29, 1959

1. CABATON 15 was assigned as an address in the BEKISS operation. Therefore, there is a chance that the address has been blown to the Polish IS. There are therefore two risks that are run in having HIROYAL-2 use this address. The first is that communications sent to it may be intercepted by Communist censorship and not get to their destination. The second is that if HIROYAL-2 were caught with this address in his possession, it might create additional troubles for him. Although he has been dropped, CABATON 15 still has a means of getting in touch with us. If a piece of mail comes to him, we will get it.

2. If HIROYAL-2 can be reached to give him an alternative, we suggest CABATON 24. The address is given in the separate cover attachment to this dispatch. We suggest the name given on the attachment, although if you would like to use another name, just let us know. CABATON-24 receives all mail at this address, including mail for visiting athletes. We merely tell him what names to look for and he forwards to us.

3. The case officer handling CABATON-15 is no longer at FOB and in the course of his departure, the assignment of CABATON 15 to HIROYAL-2 was not caught.

4. The Postfach for HIROYAL-1 is still operative and the person servicing it has been alerted.
