See Para. 2

1. We would like to bring to your attention the existence of several accommodation addresses which might be of use in some Headquarters operations. In the CABATON Project there are almost always some three to six agents whose addresses have either been used by a denied area agent, issued to such an agent but never used, or issued as part of a recruitment attempt which proved unsuccessful. These addresses are not necessarily compromised to the opposition - though they may be - but for reasons of security cannot be issued again to any denied area agent. We hesitate to terminate these agents too readily, however, because some effort has gone into their recruitment, they are tested and dependable assets, and we feel that their addresses might still be of some value in other operations. Occasionally we receive a requirement for an address which is to be used for receipt of mail from a non-Bloc location, and in such an instance one of these agents can continue to be utilized; nevertheless we nearly always have a surplus of agents in this category.

2. We offer this information for the use of any Headquarters element which might at some time need the services of a reliable live letter drop in West Germany in an operation in which mail would be sent from non-Communist countries, and in which a possibly tarnished address would not be unsuitable. We would be pleased to furnish details concerning one or more of these agents upon request.

1. In conducting a periodic review of CABATON post office box assets in Frankfurt, we note that no operational mail destined for BOB has arrived at the P.O. Box 13355 address (in the name of [redacted] since November 1963. Although this address was issued per Reference A for use by [redacted] and Hamburg, our records indicate the following use:

- a. [redacted] No mail was ever received;
- b. [redacted] No mail received since 1 July 1963;
- c. [redacted] No mail received since 22 July 1963;
- d. [redacted] No mail received since 23 November 1963. We assume that Reference B alludes to the use made by [redacted] of this address, and that [redacted] will no longer forward operational mail to it;
- e. Hamburg: No mail received since 24 April 1963, when a CANALIZE/17 letter arrived via CAPARCEL/6.

2. We would like to know whether operational mail for BOB will continue to arrive at P.O. Box 13355 from these [redacted] and [redacted]. Although we do not contemplate giving up this address in the near future, we wish to determine the state of its operational commitment.

Biographic Information on BABATON Candidates

- REFERENCES: A. EGFW-16680 dated 25 June 1964
 B. EGFA-42165 dated 22 June 1964

1. We welcomed the arrival of Reference B which gives Headquarters more insight into some of the operational aspects of assessing candidates for the CABATON program, and the limitations inherent therein. We will keep in mind the realities of the field situation as described, and we will continue to do our best to get clearances on the candidates of your choice.

2. At the same time we must point out that it behooves the field to gather and submit as much biographic information as possible at the outset of a POA request; otherwise Headquarters tracing procedures, which involve much time, money, and manpower, cannot produce meaningful results. In the two cases discussed in Reference A, involving PBPRIME nationals, we believe more biographics could have been elicited and provided with the POA request. For example, the name and address of the employer in each of these cases would have greatly assisted us in running traces. Also, the level of formal education completed and the name of the university attended, if any, should not be too hard to elicit in many cases. A suggestion: In situations where it is not practicable to obtain basic biographic data, a short statement explaining the absence of the information would help Headquarters in understanding the specific difficulties involved, and at least would obviate a re-query by cable or flexo.

3. Re paragraph 3 of Reference B, your assumption is correct.

REFERENCE(S) EGFA 42330, 20 July 1964

1. We expect that there will be a dribble of ops mail coming to the [redacted] PO box for the next six to twelve months, from [redacted] and Hamburg only. We are gradually eliminating most of our non-German accommodation addresses and expect to complete the transfer to other drops in the not too distant future. When that has been accomplished we can make other arrangements for forwarding ops mail from Hamburg and give up the [redacted] address.

2. Since we expect to receive not more than about one letter every six weeks, servicing of the [redacted] PO Box once a week will be adequate.

3. Your assumption in paragraph 1d of reference, that there will be no more mail from [redacted], is correct.
