It should be noted that the CRANNO candidate originally answered the CRTRANST ad, the WX at of 16 May which was presumably given to MK by CATIDE (see paragraph 2 of Reference A). However, after an initial interview and assess- ment the candidate was found numericable for CRTRANST work and the lead was given to the CRANNO section for follow-up. The June 1960 meeting was actually the initial interview, followed in Beptember by the report the incident to the local pollow which morphed the candidate to report the incident to the local pollow which morphed the candidate to report the incident to the local pollow which morphed the candidate to report the incident to the local pollow which morphed the candidate to report the incident to the local pollow which morphed the candidate to report the incident to the local pollow which were constanted ODHER in Duesel that the local IKA reported the incident to CATIDE before receiving CDHER's reply or that they report these incident to CATIDE before receiving CDHER's reply or that they report these incidents on a routine basis.
