Date	Recommendations/Action	
EE/BF	<div style="font-size: 2em; font-family: cursive;">OK</div>	
EE/OPS	COMMENT: During the past year this project appears to have made no progress toward recruiting 15 new LLD's for BOB operations, despite the urgency attached to the BOB requirement. A review of FOB's successful method of operation in recruiting LLD's for BOB might benefit the case officer. Recommend approval.

REQUEST FOR RENEWAL OF PROJECT CAGENERAL

1. Current Objectives: CAGENERAL Project is a clandestine communications support project and, as such, has no specific RMD objectives and targets. The project provides for the maintenance of certain live mail accommodation addresses and post office box facilities which are essential to support the operational activities of the Munich Operations Base as well as related support activities for other stations and bases, as required; for example, a current operational requirement exists to provide 15 additional live accommodation addresses suitable for utilization by the Berlin Operations Base.

2. Changes: The latest approved project renewal for CAGENERAL, covering the period 1 November 1961 through 31 October 1962 (subsequently extended through 31 January 1963), provided for a total of 11 live addresses and 8 post boxes and made further provision for the acquisition of additional facilities if required. It is planned for the ensuing project year to increase facilities to 12 post boxes and 28 live drops. The latter figure includes 15 live drops to be assigned for the exclusive use of Berlin Operations Base.

3. Intelligence Production: CAGENERAL Project is designed essentially to provide secure operational support facilities. Therefore, no intelligence is produced.

4. Liaison: No liaison relations with other governments and intelligence or security services are required in the administration of this project.

5. Interagency Coordination: No coordination with other American agencies was required during the past period nor is coordination of this nature anticipated for the renewal period involved.

6. Plans:

A. It is felt that the number of live addresses and postbox facilities provided for in this renewal request should be sufficient to support the current operational requirements of Munich Operations Base. In addition, the 15 live addresses being acquired for the Berlin Operations Base will fulfill a long-standing requirement

for support of their operational activities. Unless operational requirements change considerably, the combined number of facilities involved should be adequate for the renewal period.

B. Efforts will be continued to re-examine agent assets with a view to eliminating and replacing any where continued utilization may no longer be considered feasible. This will involve coordination where appropriate with those stations and bases currently utilizing Munich's mail accommodation facilities.

7. Costs:

A. For the past period - For the period 1 November 1961 through 31 October 1962, funds were allotted in the amount of [] Extension of the project through 31 January 1963 was approved by Headquarters in the amount of [] Estimated expenditures for the 15-month period from 1 November 1961 through 31 January 1963 should not exceed [] since a reserve to provide funds for recruitment of additional addresses and rental of additional postboxes was not required in its entire amount nor were any extensive bonus payments or salary increases made during this period. Estimated combined case officer time devoted to the project amounted to approximately 15 hours weekly or an average total of 60 hours per month.

B. For the ensuing period - Estimated costs for the period 1 February 1963 through 31 January 1964:
