CAGENERAL PROJECT RENEWALA. CURRENT OBJECTIVES

1. The CAGENERAL project provides support to all Munich Operations Base clandestine operations which involve open mail communications. CAGENERAL also provides support to certain operations under the control of Headquarters and other stations and bases. The project currently provides for 20 live letter drops and 5 post office boxes.

B. CHANGES

2. During the current project year, all live letter drops who are no longer considered usable because of compromise or other factors have been terminated, i.e., CAGENERAL-17 and CAGENERAL-20. CAGENERAL-20 has requested to be released from his commitment as a CAGENERAL, as he now feels his job with the Bavarian government has a promising future and that his superiors would look unfavorably on his CAGENERAL activities. It is planned to replace him with the subject of []

3. Two post office boxes were terminated during the project year because of their long use and probable compromise. No new post office boxes were acquired. Munich Base continues to use one safe apartment located within an OBERBERG installation as a low-security mail box at no cost to Project CAGENERAL.

C. INTELLIGENCE PRODUCTION

4. While this Project does not produce disseminable intelligence directly, the activities are in essential support of operations designed to produce disseminable intelligence. For example, the live letter drops under this Project provide secure clandestine communication channels from information sources to their case officers.

D. EFFECTIVENESS

5. During the current project year, the CAGENERAL mechanism has proven effective and reliable. To our knowledge, all mail has been received and delivered promptly to the proper persons.

E. PROBLEMS

6. There were no known problems of a security, cover, or control nature during the current project year.

7. ALYSSA/UNDER-AGENCY COORDINATION -- Not applicable to this project.

F. PLANS

8. Munich Base anticipates that it will require approximately 20 live letter drops during the coming project year. Of this number, 10 of the present live letter drops will be retained and 10 additional ones are to be recruited. [] and [] will interview CAGENERAL candidates under non-intelligence cover and will request CO's on those considered suitable for further assessment and recruitment.

9. No new post office boxes will be obtained.

9. COSTS

9. The total sum of () was approved by Headquarters for the current project year. As of 30 November 1965, approximately () of this sum had been expended. It is estimated that by the end of the project year, an additional \$464.58 will have been expended, making a total expenditure of () for the project year.

10. Estimated costs for the project year 1 February 1966 through 31 January 1967 are as follows:
