<p>1. Per ref request, as part preparation for the Periodic Division Review, we submit below a listing of all the real estate sites presently under the operational activity CATOMIC:</p> <p>A. <u>PDHUM LP</u>: The live-in listening post (LP) keepers for this LP are CATOMIC/40 and CATOMIC/41. Because of the location of the LP, in the same building as PDHUM's apartment, CATOMICs/40 and /41 have been able to establish a social relationship with PDHUM and his wife. This relationship has contributed to the assessment of PDHUM. The LP enables us to monitor the teletap and the two audio installations against PDHUM. The information obtained provides us with a good insight into PDHUM, his family life, and his contacts. The LP has also enabled us to monitor PDHUM's remarks about his association with CATOMICs/40 and /41 and <i>[redacted]</i> The location of the LP is Iden A. Annual cost is \$3,700.</p> <p>B. <u>NASSAU OP</u>: This observation post (OP), directly adjacent to CAHEAP, enables us to obtain up-to-date photos for our mug books and to initiate surveillance on selected targets based on the sightings from the OP. The OP is a one-room, efficiency located in Iden B. Annual cost is \$2,900.</p> <p>C. <u>NAVAJO</u>: This was a LP used against PDTOWHEE. At the conclusion of the PDTOWHEE operation, the LP continued to be used on a limited basis as a safehouse till we terminated it in April 75. The LP's location is Iden C. FY 75 costs were \$1,600. We are in the process of locating and renting a furnished apartment for a general safehouse under CATOMIC. The cost will be absorbed by the appropriated NAVAJO funds.</p>

CONTINUATION OF DISPATCH	CLASSIFICATION S E C R E T	DISPATCH SYMBOL AND NUMBER EGXA-4394
-----------------------------	-------------------------------	---

D. NORWICH OP: This is the OP against the new CAPAYOFF building and the CAPAYOFF hirise. The photographs we take are used to up-date mug books, plus to identify targets to assets that we decide to target against selected personnel. It is also used to obtain activity patterns of individuals so that we may be able to initiate a contact. We plan to use the OP to facilitate a chance meeting between [redacted] and PDOBSTACLE. CATOMICS/72 and /73 are the residents, but we have complete control of the apartment, since CATOMICS/72 and /73 are out of the country for an extended period. The annual cost is \$2,900. OP location is Iden D.

E. NEWBERRY: This is the one-room efficiency rented by [redacted] (aka [redacted] Pad) with anticipated use as the meeting site between [redacted] and PDHUM. We have installed a video and audio so that we will be able to monitor future meetings in the apartment. This should be of benefit in studying PDHUM's actions and reactions, enabling a more thorough assessment. The apartment is located at Iden E. The annual cost is \$3,200.

F. [redacted] LP: This is the furnished efficiency apartment located adjacent to NEWBERRY with anticipated use as the LP and audio monitor against PDHUM. The installations are wire installations which increase the security. The location and the annual cost are the same as NEWBERRY.

2. Any changes will be reported appropriately.

[redacted]
