APPROVED FOR RELEASE: 2007/03/23: CIA-RDP01-00707R000100060003-9

CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

June 1954

This Gazetteer is issued as a standard component of the National Intelligence Survey for Syria and Lebanon and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

NIS GAZETTEER

Syria and Lebanon

Official Standard Names Approved by the
UNITED STATES
BOARD ON GEOGRAPHIC NAMES

Prepared in the Division of Geography, Department of the Interior

Published by the Central Intelligence Agency
Washington, D. C. June 1954

FOREWORD

This gazetteer contains about 8,100 entries: 5,350 for Syria (pages 1-140) and 2,750 for Lebanon (pages 141-211). The scale of map coverage varies from 1:200,000 to 1:1,000,000. Except for conventional English names, the standard names were transcribed from the Arabic by the Board's system of transliteration. The names supersede those in the 1949 preliminary gazetteer of Syria and Lebanon.

Glossary of generic terms

The following glossary contains generic terms occurring in the standard names listed in the gazetteer. Each of the meanings given applies in the case of one or more of the names. The words are Arabic, except for the few Turkish terms which are marked (T).

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to adapt it to the machine method of tabulation.

Name.--Standard names and cross-references from variant names appear in the first column. Where part of a name is underlined>, the use of the nonunderlined part is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that consist of specific and other elements are alphabetized by the specific part; thus the hill Jabal al Abyaḍ is listed as Abyaḍ, Jabal al. Diacritical marks used in the recommended names for Syria and Lebanon are illustrated in the following words (the same marks are used in both capital and lower-case lettering): 'Abḥīn, Qaḍā', Ḥamīrā', Mū'ā, Ṣadad, Ḥahr, Buḡrā.

Designation.--Designations, in the second column, are sometimes abbreviated and represent groups of features, as follows:

ADMD	administrative division	POPL	populated place
BRDG	natural bridge	PROV	province
CAPE	cape, promontory	PT	point
DEPR	depression	REGN	region
DIST	district	REP	republic
DRNG	interior drainage basin	RSTA	railroad station
DSRT	desert	SALT	salt lake, salt marsh, salt pan
FLAT	mud flat	SECP	section of a populated place
FRST	forest	SHRN	shrine
HILL	hill(s)	SITE	ancient site, ruins
ISL	island, islet	SPRG	spring
MON	monastery	STRM	stream
MOSQ	mosque	UPLD	upland, plateau
MRSR	marsh	VAL	valley
MT	mountain	WELL	well(s), water hole
MTS	mountains, mountain range		
PLN	plain		

Latitude and longitude.--Coordinates, in the third and fourth columns, are for finding purposes only. Where the scale of sources permitted, they were read to the nearest minute.

Administrative division.--The number in the fifth column indicates the area in which the place is located: 413, Syria; 4134, Lebanon.

Locational reference.--The number in the last column indicates a map or chart where the feature may be located by its standard name or by a recognizable variant of its standard name, as follows:

The code 00 is used for cross-references and for the standard names not to be found on the maps listed above.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Interior Department Building, Washington 25, D. C. A statement of the source of the correct information will be helpful.
