CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

August 1954

This Gazetteer is issued as a standard component of the National Intelligence Survey for West Africa and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

The NIS Gazetteer for West Africa comprises the following 2 volumes:

Volume I British Cameroons, Gambia, Gold Coast, Nigeria, Portuguese Guinea, Sierra Leone, Spanish Sahara, Togo, and Togoland.

Volume II French West Africa.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This two-volume gazetteer contains about 66,300 entries for places and features in western Africa. These entries include approved standard names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

This volume contains about 31,900 entries for the smaller countries: British Cameroons (2,000; pp. 1-49), Gambia (2,100; pp. 51-103), Gold Coast (4,900; pp. 105-224), Nigeria (14,900; pp. 225-583), Portuguese Guinea (2,000; pp. 585-636), Sierra Leone (2,100; pp. 637-88), Spanish Sahara (1,900; pp. 689-741), Togo (850; pp. 743-64), and Togoland (1,150; pp. 765-93). The second volume contains about 34,400 entries for French West Africa.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.--Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to approved names by use of the word "see." Where part of a standard name is underlined, the use of the nonunderlined part is optional. Where two names are approved for a feature, each is identified in parentheses and either or both may be used. Names that consist of specific and other elements are alphabetized by specific part; thus River Akbang is listed as Akbang, River. Some of the variant names were taken from German maps that use an elaborate and unusual system of diacritical marking; the marks on these variants are not reproduced in this gazetteer. Marks that occur on recommended names include the acute accent (as in Afia), the grave accent (Rivière), the dieresis (Göningsan), the tilde (Cañ), the circumflex (Anonhô), and the cedilla (Açoço).

Designation.--Designations, in the second column, are sometimes abbreviated and represent groups of features, as follows:

ADMD	administrative division, administrative region	FLAT	flat(s)
ANCH	anchorage	FRST	forest, forest reserve
AREA	tribal area, geographical area	GRAZ	grazing area
BANK	bank(s), mudbank	GRGE	gorge, defile

SHOL shoal(s)	WADI wadi(es), wadi mouth
SHOR shoreline	WELL well(s)
SITE site, ruins	WSTE wasteland
	WTRH water hole(s)

Latitude and longitude.--Coordinates, in the third and fourth columns, are for finding purposes only. Where the scale of sources permitted, they were read to the nearest minute. It is to be noted that for much of western Africa accurate maps are not available and therefore the coordinates given may not be exact. In some areas (notably in Gambia), places of the same name are in some instances so close together as to have the same coordinates.

Administrative division.--The number in the fifth column indicates the area in which the place is located:

531 Spanish Sahara	5365 Togoland
532 Gambia	537 Togo
533 Portuguese Guinea	538 Nigeria
534 Sierra Leone	540 French West Africa
536 Gold Coast	5523 British Cameroons

Locational reference.--The number in the last column indicates a map or chart where the feature may be located by its standard name or a recognizable variant of its standard name, as follows:
