NIS GAZETTEER

**British West Indies
and Bermuda**

FOR OFFICIAL USE ONLY

CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

October 1955

This Gazetteer is issued as a standard component of the National Intelligence Survey for the British West Indies and Bermuda and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 10,500 entries for the British West Indies and Bermuda: 1,200 for the Bahamas and the Turks and Caicos Islands (pages 1-19); 4,450 for Jamaica and dependencies except the Turks and Caicos Islands (pages 21-83); 2,600 for the British possessions in the Lesser Antilles, comprised of the colonies of Barbados, Dominica, Grenada, the Leeward Islands, Saint Lucia, and Saint Vincent (pages 85-122); 1,850 for Trinidad and Tobago (pages 123-50); and 400 for Bermuda (pages 151-57). The entries include approved standard names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The scale of map coverage is about 1:1,700,000 for the Bahamas and 1:140,000 or larger for the other areas.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Names.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the approved names by use of the word "see." Where part of a standard name is underlined, the use of the nonunderlined part is optional. Where two names are approved for a feature, each is identified in parentheses and either or both may be used. Names that consist of specific and other elements are regularly alphabetized by specific part; thus Baie d'Abraham is listed as Abraham, Baie d'. Diacritical marks include the tilde (as in Caño), the acute accent (Vallée), the grave accent (Rivière), the circumflex (Maître), and the cedilla (Francois).

Designation.—The second column contains designations or abbreviations of designations, as follows:

ADMD administrative division	INLT inlet
ANCH anchorage	ISL island, islet
ASPH asphalt deposit	ISLS islands

Latitude and longitude.---Coordinates, in the third and fourth columns, are for finding purposes only. They were read to the nearest minute.

The code 00 is used for cross-references and for standard names to be found only on references other than those listed above.

Administrative division.---The number in the fifth column indicates the area in which the place is located: 721, Bahamas and the Turks and Caicos Islands; 727, Jamaica and dependencies except the Turks and Caicos Islands; 732, British Lesser Antilles; 737, Trinidad and Tobago; 739, Bermuda.

Glossary of non-English generic terms

The following generic terms occur in the standard names listed in the gazetteer. Each of the meanings given applies in the case of one or more of the names.

Locational reference.---The number in the last column indicates a map where the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

- 01 *Jamaica 1:125,000*, GSGS 4654, reprinted from AMS E621, 1944, reproduced by War Office, 1948.
