NIS GAZETTEER

**U. S. Possessions
in the Caribbean**

FOR OFFICIAL USE ONLY

CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

May 1958

This Gazetteer is issued as a standard component of the National Intelligence Survey for the U. S. Possessions in the Caribbean and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

Other islands and banks	115

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.

FOREWORD

This gazetteer contains about 8,500 entries for places and features in Puerto Rico (about 5,000 entries), the Virgin Islands of the United States (3,400 entries), and other islands and banks in the Caribbean (100). The other islands and banks include the Swan Islands, the Corn Islands, Navassa Island, Quita Sueno Bank, Serrana Bank, Roncador Bank, and Serranilla Bank.

Puerto Rico is a Commonwealth; the Virgin Islands and Navassa Island are possessions of the United States; the Swan Islands are under United States sovereignty; the Corn Islands are leased from Nicaragua; Serrana Bank, Roncador Bank, and Quita Sueno Bank are claimed by both the United States and Colombia; and with respect to Serranilla Bank the United States has certain rights based on past activities of its nationals.

The entries include approved standard names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for these areas.

The scale of map coverage is about 1:30,000 or larger for Puerto Rico and varies between 1:40,000 and 1:24,000 for most of the Virgin Islands and other areas.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the non-underlined part is optional. Where two names are approved for a feature, each is identified in parentheses and either or both may be used. Names that include specific and other elements (except names of populated places) are alphabetized by specific part; thus Cayo del Agua is listed as Agua, Cayo del. Diacritical marks include the acute accent (as in Bahía), the tilde (Cañó), and the dieresis (Cagüitas). The same marks should be used whether the names are written in capitals or lowercase letters.

Designation—The second column contains designations or abbreviations of designations, as follows:

ADMD administrative division (municipio)	CMNW commonwealth
ANCH anchorage	CNAL canal
AQDT aqueduct	CNTL central (sugar mill)
AREA area	CNYN canyon
BANK bank	COVE cove
BARR barrio (subdivision of a municipio)	DIST senatorial district

POND salt pond	UPLD upland, plateau
POOL (intermittent) pool	VAL valley
POPL populated place	
PRMT promontory	
PT point	

Latitude and longitude—Coordinates, in the third and fourth columns, are for finding purposes only. For precise location large-scale maps or charts should be referred to.

Administrative division—The numbers in the fifth column are area numbers: 728, Puerto Rico; 731, Virgin Islands; 730, other Caribbean areas.

Locational reference—The number in the last column indicates a map or chart on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

- 01 *Puerto Rico, 7.5 Minute Series (Topographic)*, United States Geological Survey, 1948–55; scale 1:30,000.
- 02 [United States Coast and Geodetic Survey charts], various scales and dates.
- 03 *Caribbean Purchase Unit (Toro Negro Division) Puerto Rico, 1946, and Caribbean National Forest, Luquillo Division, 1945*, both United States Forest Service, scale 1:63,360.
- 04 [United States Hydrographic Office charts], various scales and dates.
- 05 *Virgin Islands 1:24,000*, United States Geological Survey, 1954–55.

The code 00 is used for cross-references and for the standard names to be found only on references other than those listed above.
