FOREWORD

This gazetteer contains about 3,750 entries for islands and other features in the South Atlantic: 650 for Saint Helena and dependencies, including Ascension and Tristan da Cunha (pages 1-9); 1,700 for the Falkland Islands (pages 11-33); and 1,400 for Antarctic islands, including South Georgia, the South Sandwich Islands, the South Orkney Islands, the South Shetland Islands, and Bouvet Island (pages 35-53). The entries include approved standard names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The scale of map coverage is about 1:25,000 for Saint Helena, 1:36,000 for Ascension, 1:110,500 for Tristan da Cunha, 1:225,000 for the Falkland Islands except the eastern third, which is covered at 1:25,000, and 1:100,000 for the Antarctic islands.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by the use of the word "see." Where part of a name is underlined, the use of the nonunderlined part is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that include specific and other elements (except names of populated places) are alphabetized

by specific part; thus Point Abrahamsen is listed as Abrahamsen, Point. Diacritical marks include the acute accent (as in Crépin), the tilde (Acuña), the circumflex (Beauchêne), the slash o (Brøde), and the dieresis (Brogger). The same marks are to be used with both capital and lowercase letters.

The approved names of Bouvet Island include the following Norwegian generic terms: *holm*, island; *bul*, hole or bay; *øy*, island; and *vik*, bay.

Designation.—The second column contains designations or abbreviations of designations, as follows:

- 02 *Falkland Islands Dependencies*: [maps of] *South Georgia, South Sandwich Islands, South Orkney Islands, and South Shetland Islands*, Directorate of Colonial Surveys, preliminary editions, 1953 ff., various scales.
- 03 [United States hydrographic charts], Hydrographic Office, Navy Department, Washington, various dates and scales.
- 04 *Falkland Islands*, GSGS 4465, Geographical Section, General Staff, London; 3 sheets, 1A (1944), 1B (1944), and 2 (1943); scale 1:25,000.

The code 00 is used for cross-references and for the standard names to be found only on references other than those listed above.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Interior Department Building, Washington 25, D. C. A statement of the source of the correct information will be helpful.

Other gazetteers

The following publications may be helpful as finding lists, though the names in the second one are not necessarily those approved by the Board as standard names:

1. Board on Geographic Names, *Geographic Names of Antarctica*, Gazetteer No. 14, Superintendent of Documents, Government Printing Office, Washington 25, D. C., January 1956.
2. *Gazetteer of the Falkland Islands Dependencies*, Research Department, Foreign Office, Whitehall, London, S.W.1, September 1955.

Latitude and longitude.--Coordinates, in the third and fourth columns, are for finding purposes only. They were read to the nearest minute.

Administrative division.--The numbers in the fifth column are area numbers assigned as follows: 183, Antarctic islands in the western hemisphere; 185, Antarctic islands in the eastern hemisphere; 788, Falkland Islands; 988, Saint Helena and dependencies.

Locational reference.--The number in the last column indicates a map on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

- 01 [British Admiralty charts], Hydrographic Department, Admiralty, London, various dates and scales.
