CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

June 1957

This Gazetteer is issued as a standard component of the National Intelligence Survey for the West Pacific Islands and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

# Mariana Islands, Guam, and Marcus Island

APPROVED FOR RELEASE: 2007/03/23: CIA-RDP01-00707R000100090009-0

FOREWORD

This gazetteer contains about 14,100 entries for places and features in the Trust Territory of the Pacific Islands and other West Pacific islands: about 2,700 entries for the Mariana Islands, Guam, and Marcus Island (pages 1-35); 6,750 for the Caroline Islands (pages 37-115); and 4,650 for the Marshall Islands and Wake (pages 117-70). The entries include approved standard names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the areas.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the nonunderlined part is optional. Where two names are approved for a feature, they are separated by a semicolon and either or both may be used. Names that include specific and other elements (except names of populated places) are alphabetized by specific part; thus the cliffs Laderan I Agag are listed as Agag, Laderan I.

Designation.—The second column contains designations or abbreviations of designations, as follows:

ADMD	administrative division	LDIV	native land division
ANCH	anchorage	MCTY	municipality
AREA	area	MRSH	marsh
ATLL	atoll	MT	mountain
BANK	bank	PASS	pass
BAY	bay	PEAK	peak
BCH	beach	PEN	peninsula
CAPE	cape	POPL	populated place
CAVE	cave	PRMT	promontory
CHAN	channel	PT	point
CLIF	cliff(s)	RCKS	rocks
CNAL	canal	RDGE	ridge
COVE	cove	REFE	reef
CRTR	crater	ROCK	rock
DEEP	deep	SECI	section of an island
DIST	district	SECP	district in a city
FALL	waterfall	SHOL	shoal(s)
GRGE	gorge, ravine	SINK	sink
GRSS	grasslands	SITE	site, ruins
HBR	harbor	SPRG	spring
HILL	hill	STR	strait, passage
INLT	inlet	STRM	stream
ISL	island, islet	SUBD	subdistrict
ISLS	islands	SWMP	swamp
LAGN	lagoon	TERR	territory
LAKE	lake	VOLC	volcano
LCTY	locality		

Latitude and longitude.—Coordinates, in the third and fourth columns, are for finding purposes only and generally are not precise enough for plotting purposes. Large-scale maps or charts should be referred to for relative locations and more exact coordinates.

Administrative division.--The number in the fifth column is the area number assigned to islands or island groups, as follows: 932, Mariana Islands; 933, Guam; 934, Caroline Islands; 935, Marshall Islands; 938, Marcus Island; and 939, Wake.

Locational reference.--The number in the last column indicates a map or chart on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

- 01 United States Hydrographic Office, [Charts and field charts], various dates and scales.
- 02 High Commissioner, [Maps of the atolls in the Trust Territory with accompanying name lists], 1955; various scales.
- 03 *Marshall Islands*, AMS W861, Army Map Service, Washington, 1947; scale 1:25,000.
- 04 *Caroline Islands*, AMS W856, 1947; scale 1:25,000.
- 05 *Mariana Islands*, AMS W841, 1945; scale 1:25,000.
- 06 *Island of Guam*, AMS W742, 1949; scale 1:62,500.
- 07 *Saipan-Tinian Area*, AMS W844, 1944; scale 1:20,000.
- 08 *Mariana Islands* [Guam], AMS W743, 1955; scale 1:50,000.
- 09 *Palau Island*, AMS W752, 1943-46; scale 1:40,000.
- 10 *Saipan*, AMS W843, 1955; scale 1:25,000.
- 11 *Guam*, chart 4196, United States Coast and Geodetic Survey, Washington, 1946.

The code 00 is used for cross-references and for the standard names to be found only on references other than those listed above.

Glossary of generic terms

The following terms either occur in the standard names listed in the gazetteer or are native words in cross-references. Each of the meanings given applies in the case of one or more of the names.

bahia	bay	ogso	mountain, hill, ridge, peak
bobo	spring	pilen	stream
dol	peak	pillap	stream
hagoi	lake	puetton	harbor
hoyon	sink	pukl	point
isleta	island	puntan	point
kanat	ravine, gorge	sabana	hill
kapidau	channel	sabanan	grasslands
laderan	cliffs	sadog	ravine, stream
lagunan	lagoon	toagel	channel
liyang	cave	toakl	channel
mochen	channel	tolen	peak
moz	channel	unai	beach
nom	bay	unun	point
nomon	bay		

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Interior Department Building, Washington 25, D.C. A statement of the source of the correct information will be helpful.

Other gazetteers

The following publications may be helpful as finding lists, though the names in them are not necessarily those approved by the Board as standard names:

- 1. E. H. Bryan, Jr., *Gazetteer of the Former Japanese Mandated Islands of Micronesia and the Island of Guam*, Honolulu, 1946.
- 2. *Gazetteer: Caroline, Marianas, Marshall and Gilbert Islands*, H.O. Pub. 886, Hydrographic Office, Department of the Navy, Washington, July 1944.
