## NIS GAZETTEER

# Sierra Leone

The NIS Gazetteer on Sierra Leone is issued under the NIS maintenance program. It supersedes the material on Sierra Leone in the Preliminary NIS Gazetteer on West Africa, dated August 1954.

CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

August 1966

This Gazetteer is issued as a standard component of the National Intelligence Survey for Sierra Leone and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100140010-2

FOREWORD

This gazetteer contains about 8,800 entries for places and features in Sierra Leone. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds to that of maps at the scale of 1:250,000. Entries include the names of first- and second-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word “see.” Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus Cape Shilling is listed as Shilling, Cape.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in *this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Sierra Leone some of the features do not fit precisely into the categories used

to designate them and others could be designated in two or more ways.

- ADMD administrative division (first-order: province, area; second-order: district)
- AIRP airport
- BAY bay (coastal indentation of a size intermediate between a gulf and a cove)
- CAPE cape (seaward end of a projection of land of such position and size as to affect the course of ships)
- CHNM marine channel (channel between coastal islands, reefs, or shoals; between an offshore feature and the mainland; or through a shallow marine waterbody)
- COVE cove
- CRKT tidal creek (watercourse tidal in all or most of its length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland)
- DAM dam (barrier constructed across a stream to impound water)
- ESTY estuary (drowned lower part of a stream)
- HLL hill (landform of moderate relief, moderate elevation, and small summit area)
- HLLS hills
- ISL island
- ISLS islands
- LK lake
- LKI intermittent lake (seasonal waterbody which becomes a lake during periods of rain but which dries up or becomes a marsh or waterhole during the dry season)
- MT mountain (landform of conspicuous relief, moderate to high elevation, and small summit area)
- MTS mountains
- PCLI independent political entity (parliamentary state)

PEN	peninsula
PK	peak (separately named summit on a more extensive elevation)
PPL	populated place (city, town, village, settlement; includes some places symbolized as single huts on maps)
PPLX	section of populated place (Freetown)
PT	point (relatively minor projection of land into a water-body, or its extremity)
RCN	region (large area recognized as an entity by reason of the unity of its history, people, landscape, or other condition or a combination of conditions)
RSV	reservoir (large artificially impounded body of water)
SHOL	shoal(s) (offshore hazard to navigation composed of unconsolidated material and having a least depth of ten fathoms or less)
SPUR	spur (short sloping ridge extending laterally from a mountain or other elevation)
STM	stream (includes intermittent streams)
STMA	anabranh (stream that leaves the main stream and rejoins it after a separate course for a considerable distance)
STMD	distributary (secondary watercourse carrying part of the drainage of a larger stream into another water-body; characteristic of deltas)
VAL	valley (area drained by a stream, or a named segment of such an area)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills,

at the extremities of capes and points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative division (province or area) of Sierra Leone in which the place or feature is located, as listed below:

53400	Sierra Leone (general)	53403	Southern Province
53401	Western Area	53404	Eastern Province
53402	Northern Province		

The general number (53400) is used for international features and for features in two or more first-order administrative divisions.

Locational reference.—A number other than 00 in the last column indicates a map on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

- 01 *Sierra Leone 1:50,000*, D.O.S. 419 (Serics G742), Directorate of Overseas Surveys, Tolworth, Surrey, England, 1961-65.
- 02 *Sierra Leone 1:62,500*, Ghana Survey Department, Accra, various dates.
- 03 *Sierra Leone, Series G442 (GSGS 3921)*, Edition 6-GSGS, Directorate of Survey, War Office and Air Ministry, London, 1963; scale 1:500,000.
- 04 British Admiralty charts, Admiralty, London, various dates and scales.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
