CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

August 1966

This Gazetteer is issued as a standard component of the National Intelligence Survey for Thailand and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

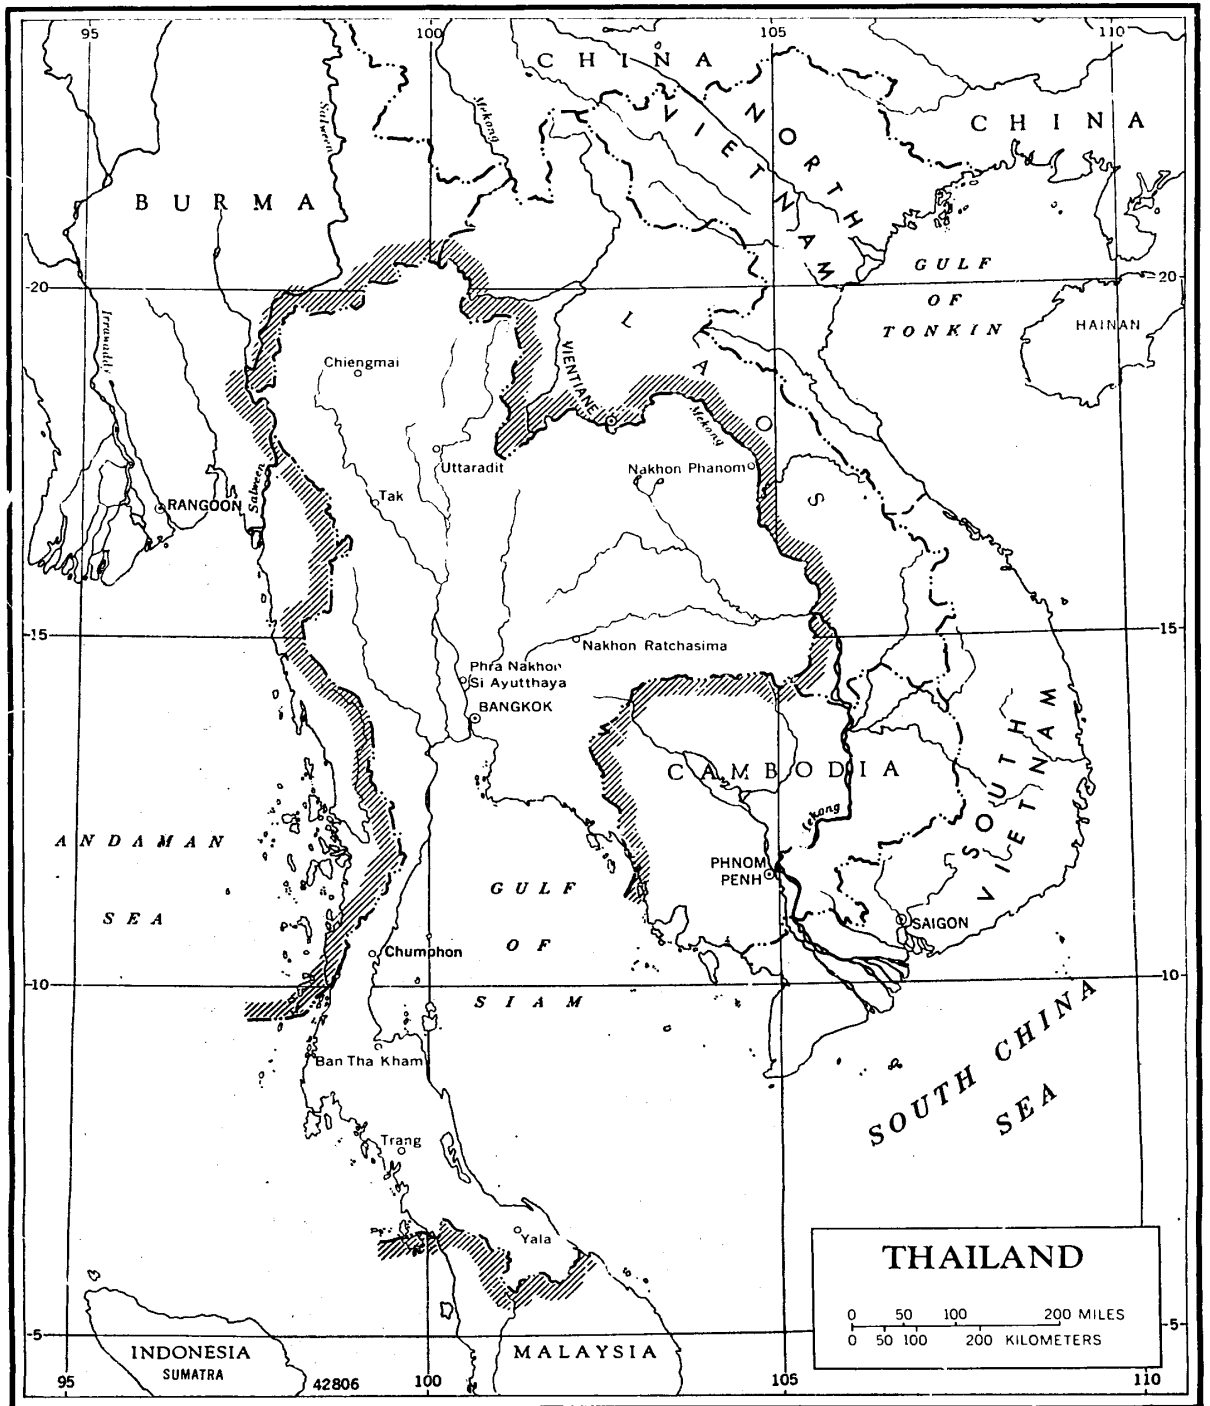

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

NIS GAZETTEER

Thailand

Official Standard Names Approved by the
U.S. Board on Geographic Names

Prepared in the Office of Geography, Department of the Interior
Coordinated by the Central Intelligence Agency
Washington, D.C. August 1966

FOREWORD

This gazetteer contains about 45,500 entries for places and features in Thailand. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds to that of maps at the scale of 1:200,000, with coverage at larger scale for selected areas. Entries include the names of administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus Khao Daen, the name of a hill, is listed as Daen, Khao.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in *this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and

with the nature of the entities that are named. In Thailand some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

- ADMD administrative division (first-order, *changwat*; second-order, *amphoe*; third-order, *king amphoe*); administrative region (group of *changwats* having limited administrative function, *phak*)
- AIRP airport
- BAR bar (deposit of water-borne materials at or below the water level at the mouth of a stream)
- BAY bay
- BCH beach (deposit of sand or other unconsolidated material along a shore)
- BGHT bight (open body of water forming a slight recession in a coastline)
- CAPE cape (seaward end of a projection of land of such position and size as to affect the course of ships)
- CH church (house of Christian worship)
- CHNM marine channel (channel between coastal islands, reefs, or shoals; between an offshore feature and the mainland; or through a shallow marine waterbody)
- CMP campsite
- CNL canal (includes drainage and irrigation canals and ditches, both perennial and intermittent; see also CNLN)
- CNLN navigation canal
- COVE cove
- CRKT tidal creek (watercourse tidal in all or most of its length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland)

DAM	dam	MTS	mountains; mountain range
ENTR	entrance (opening from the sea into a lagoon, bay, or harbor)	PAL	palace
ESTY	estuary (drowned lower part of a stream)	PASS	pass (way over or between mountains or other high land)
FLL	waterfall	PCLI	independent political entity (kingdom)
FT	military post	PEN	peninsula
GRGE	gorge (relatively narrow, steep-sided segment of a streamcourse)	PGDA	pagoda (Buddhist shrine or memorial, usually tower-like and surmounted by a spire; locally identified by the terms <i>chedi</i> , <i>that</i> , and <i>phra that</i>)
GULF	gulf	PK	peak (separately named summit on a more extensive elevation)
HDLD	headland (conspicuously high piece of land jutting out into or fronting the sea)	PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)
HLL	hill (landform of moderate relief, moderate elevation, and small summit area)	PND	pond
HLLS	hills	PNDI	intermittent pond(s)
ISL	island	PNDS	ponds
ISLS	islands	PPL	populated place (city, town, village, settlement. Frequently two or more separate settlements with the same name occur in the same vicinity. Army Map Service map series L708 differentiates these by Arabic numerals in parentheses. These numerals have been included in the listed names but their use is optional, since they are not actually parts of names.)
ISTH	isthmus (narrow strip of land joining two wider land areas and separating two waterbodies)	PPLX	section of populated place (part of a city or contiguous urbanized area named as an entity but having no known administrative status)
LGN	lagoon (waterbody along a coast, largely or wholly cut off from the sea by a barrier beach or other depositional feature)	PT	point (relatively minor projection of land into a waterbody, or its extremity)
LK	lake	RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)
LKI	intermittent lake (seasonal waterbody which shrinks and may become dry during periods of low rainfall)	RH	resthouse (structure maintained for the rest and shelter of travelers)
MNQ	abandoned mine	RKSW	rocks in water
MRSR	marsh (wetland characterized by grasses or bush vegetation and few or no trees; may contain areas of open water not separately named)		
MSQE	mosque (Islamic house of public worship)		
MSTY	monastery (house of seclusion or retirement for Buddhist monks, with or without an associated temple)		
MT	mountain (landform of conspicuous relief, moderate to high elevation, and small summit area)		

RKW rock in water
 RPDS rapids
 RSTN railroad station
 RSV reservoir (large artificially impounded body of water)
 SCRPF escarpment (more or less continuous line of cliffs or steep slopes facing in one direction)
 SD sound (broad, open body of marine water more or less circumscribed by islands, rocks, shoals, and/or the mainland)
 SEA sea
 SHOL shoal (offshore hazard to navigation composed of unconsolidated material and having a least depth of ten fathoms or less)
 SHRN Chinese shrine (Chinese house of worship)
 SPNG spring
 STM stream (river or other running fresh waterbody, perennial in all or a part of its course)
 STMA anabranch (stream that leaves the main stream and rejoins it after a separate course for a considerable distance)
 STMC canalized stream (stream that has been canalized, ditched, diked, or straightened for any purpose, yet retains in part the characteristics of the original stream)
 STMD distributary (secondary watercourse carrying part of the drainage of a larger stream into another waterbody; characteristic of deltas)
 STMI intermittent stream (stream, no part of which is indicated as perennial)
 STMM stream mouth
 STMX section of stream (separately named part of a stream, not delimited by significant confluences; separately named section of a stream having the same other name applied both above and below it, whether or not the section is delimited by confluences)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of capes and points, and near the centers or mid-points of other features.

Area number.—The number in the fifth column indicates the first-order administrative unit (*changwat*) of Thailand in which the place or feature is located, as listed below:

46200 Thailand (general)	46226 Roi Et
46201 Mae Hong Son	46227 Kanchanaburi

46258 Chumphon	46269 Pattani
46259 Ranong	46270 Yala
46260 Phangnga	46271 Narathiwat

The general number (46200) is used for international features and for features in two or more first-order administrative units.

Locational reference.—A number other than 00 in the last column indicates a map on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

- 01 *Thailand 1:50,000*, AMS L708, Army Map Service, Washington, 1956-63. (In English and Thai)
- 02 *Burma and Thailand*, Survey of India, CGS 4218, Geographical Section, General Staff, War Office, London; scale 1:253,440. (In English)
- 03 *S.E. Asia*, Survey of India, AMS L402; scale 1:500,000. (In English)
- 04 *Asia*, Survey of India, GSGS 2555; scale 1:1,000,000. (In English)
- 05 British Admiralty charts, Hydrographic Department, Admiralty, London, various scales and dates. (In English)
- 06 *Maps of Thailand*, Royal Survey Department, Thailand, 1918-55 (reprint dates 1953-55); scale 1:200,000. (In Thai)

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
