# Bahrain, Kuwait, Qatar, and United Arab Emirates

OFFICIAL STANDARD NAMES

approved by the

UNITED STATES BOARD ON GEOGRAPHIC NAMES

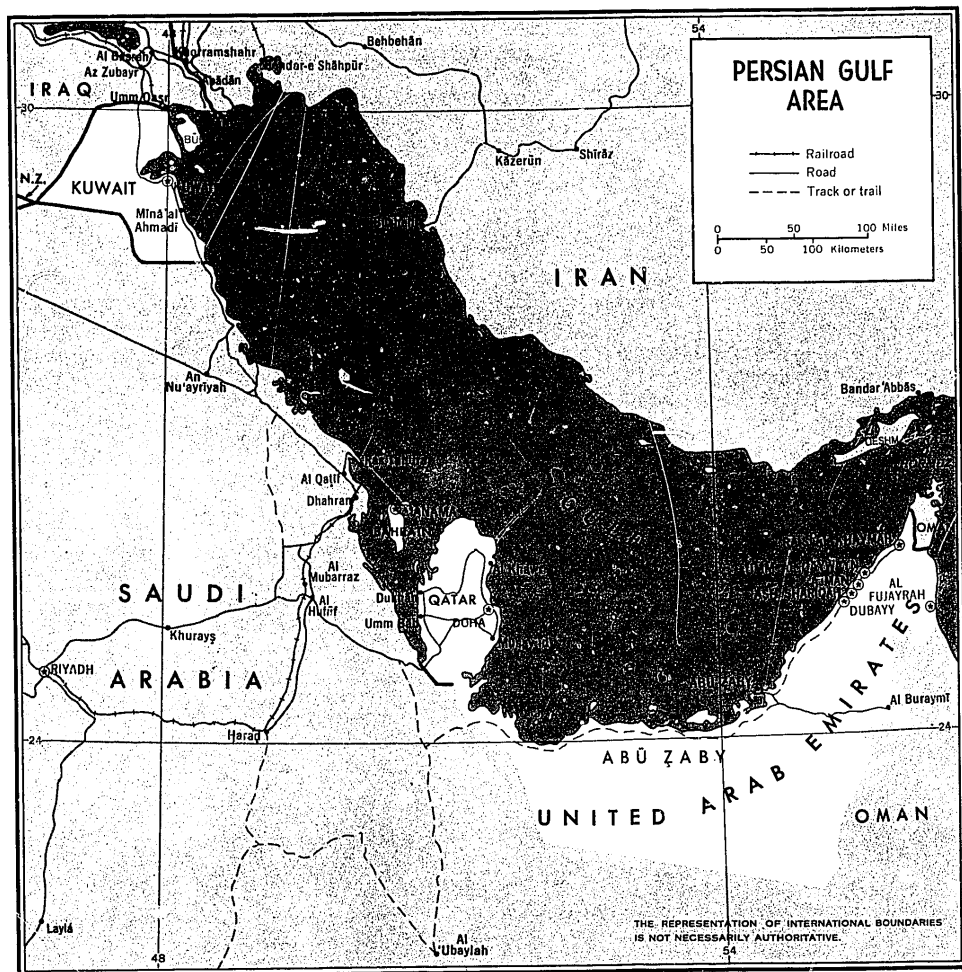

Prepared by the

Defense Mapping Agency Topographic Center

Washington, D.C. 20315, March 1976

---

---

FOREWORD

This gazetteer contains about 7,650 entries for places and features in four lists: Bahrain (835), Kuwait (1,400), Qatar (1,250), and the United Arab Emirates (4,165). Research for this publication was completed in June 1975.

The names in this gazetteer supersede those in all previous Board lists for the area.

The entries include standard names approved by the U.S. Board on Geographic Names (BGN) and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds to that of maps at the scales of 1:50,000 for Bahrain and 1:100,000 for all other areas. Entries include the names of first-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Most of the entities can be identified and located by the approved name or a recognizable variant of the approved name on one or more of the following sources:

GENERAL

1. *Joint Operations Graphic (Ground) 1:250,000*, D. Survey, Ministry of Defence (U.K.) and U.S. Army Topographic Command or Defense Mapping Agency Topographic Center, 1966-1973.
2. *Arabian Peninsula 1:500,000* (Series K462), U.S. Army Map Service, 1964 (English and Arabic).
3. *British Admiralty Charts*, Hydrographic Department, Admiralty, London, various dates and scales.

BAHRAIN

4. *Bahrain 1:50,000*, Director of Military Survey (U.K.), 1973.
5. *Bahrain Island 1:63,360*, Public Works Department, Bahrain Government, 1968.

KUWAIT

6. *Kuwait 1:100,000* (Series K664), Directorate of Military Survey, 1973.

QATAR

7. *Qatar 1:100,000*, Hunting Surveys, Ltd., London, 1968.

UNITED ARAB EMIRATES

8. *Trucial States, Muscat-Oman 1:100,000* (Series K668), Directorate of Military Survey, Great Britain, 1959-1971.
9. *Abu Dhabi Physical Map 1:500,000*, Frederico de Agostini, Milan, 1970.
10. *United Arab Emirates 1:750,000*, Centre for Documentation and Research, Ministry of Cabinet Affairs, Abu Dhabi, 1974.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in this gazetteer in order to accommodate it to machine tabulation.

**Name.**—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word “see.” Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus *Jabal ad Dukhān*, the name of a mountain, is listed as *Dukhān, Jabal ad*. Where part of a name is underlined, the use of the part not underlined is optional. If two or more names are approved for a feature, each is identified in parentheses and any or all may be used.

Language labels are used to identify alternate local names of noninternational features. Local names of international features are identified by major-political-entity labels. If only one country is identified parenthetically, no name is available for the feature in the other country. The following abbreviation is used in this gazetteer where it is necessary to indicate the sovereignty of international names:

U.A.E. [United Arab Emirates]

As far as possible, Arabic names in this gazetteer have been romanized from Arabic script according to the transliteration system used jointly by the Board on Geographic Names and the Permanent Committee on Geographic Names for British Use (the BGN/PCGN 1956 System), which follows on pages ix through xiii. It is almost always necessary to add missing symbols for short vowels (vowel points) in Arabic script and to rewrite dialectal forms in standard written Arabic. Names found written only in roman letters but recognizable as Arabic have been reconstructed into Arabic script and then transliterated.

In a few cases, in which it was not possible to determine complete BGN/PCGN Arabic forms, names have been given in the form found in romanized sources and marked with an asterisk (\*) preceding the designation; however, individual

Arabic words recognizable in these names have been rendered in the system.

The diacritical marks used in approved Arabic names in the area covered by this gazetteer are the macron (¯), the cedilla (¸), and the acute accent (´). These marks are to be used whether the names are written in capital or lowercase letters. In addition, the apostrophe (') and the inverted apostrophe (’), representing the letters *hamzah* and *‘ayn*, respectively, frequently occur in Arabic names.

In writing Arabic names in capital and lowercase letters, every word in a name should be initially capitalized except the following when they are not name-initial: *wa* (and) and the definite article *ad, al, adh, al, an, ar, as, ash, at, ath, az, and aẓ*.

**Designation.**—The second column contains designations or abbreviations of designations, as listed below. Because practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in *this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. Some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

- ADMD first-order administrative division; municipality (Bahrain); emirate (U.A.E.); none (Qatar); governorate (Kuwait)
- ANCH anchorage (place within a harbor or roadstead where ships may anchor)
- AREA area (tract of land identified by a name, but without homogeneous character or established boundaries; may be identified and named for characteristics which no longer pertain to it)

BAY	bay (coastal indentation of a size intermediate between a gulf and a cove)	DSRT	desert (barren tract characterized by arid climate and sparse xerophytic vegetation)
BCH	beach (deposit of sand or other unconsolidated material along a shore)	DUNE	dune(s) (hill or ridge of sand formed by the action of wind)
BDG	bridge	DWL	dwelling
BGHT	bight (open body of water forming a slight recession in a coastline)	ENTR	entrance (opening from the sea into a lagoon or bay, not necessarily of importance to navigation)
BLDG	building	FCLO	oil facility
BND	wadi bend (conspicuously curved portion of a wadi, includes the area enclosed by the bend)	FLTT	tidal flat (coastal area alternately submerged and exposed by the tide)
CAPE	cape (seaward end of a projection of land of such position and size as to affect the course of ships)	FT	fort (defensive structure or works, generally of little or no military significance; may be in a state of ruin)
CARN	cairn (heap of stones erected as a landmark or for other purposes)	GRVP	palm grove
CHN	channel	GULF	gulf (large, broad water body indenting a coast)
CHNM	marine channel (channel between coastal islands, reefs, or shoals; between an offshore feature and the mainland; or through a shallow marine water body)	GVL	gravel outcrop
CLF	cliff (high, steep rock face overlooking a lower area, such as a water body, coastal lowland, or valley); bluff (high, steep bank without conspicuous surface rock, facing a lower area)	HBR	harbor (body of water providing shelter for ships)
CMP	camp, campsite	HLL	hill (landform of moderate relief, moderate elevation, and small summit area)
CMPM	military camp	HLLS	hills
CMPO	oil camp	INLT	inlet (small, narrow indentation in a coast)
CMPQ	disused oil camp	ISL	island (includes elevated areas in sabkhas)
CMTY	cemetery	ISLP	land-tied island (former island joined to the mainland by natural processes of deposition)
CNLU	underground irrigation canal (gently inclined underground tunnel bringing water for irrigation from aquifers near the base of mountains)	ISLS	islands
COVE	cove (small bay)	ISLX	section of island
CULT	cultivated area	LCTY	locality (minor area or place of unspecified or mixed character)
DPR	depression; elongated depression (lower area wholly or largely surrounded by higher land; ordinarily has interior drainage and does not conform to the valley of a single stream)	LDNG	landing (place where small boats are tied up or beached; place where boats touch land for the purpose of taking on or discharging people or cargo)
		LGN	lagoon (water body along a coast, largely or wholly cut off from the sea by a barrier beach or other depositional feature)
		MESA	mesa (flat or nearly flat landform less extensive than a plateau with abrupt or steeply sloping side or sides)

MT	mountain (landform of conspicuous relief, moderate to high elevation, and small summit area)	PT	point (relatively minor projection of land into a water body, or its extremity)
MTS	mountains, mountain system	RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)
OAS	oasis (watered area in a desert, usually with cultivation dependent on irrigation or a shallow ground water table)	RECR	race track
OILF	oilfield (area containing a subterranean store of petroleum of economic value)	RF	reef(s) (offshore consolidated rock hazard to navigation with a least depth of 20 meters [or 10 fathoms] or less)
OILQ	abandoned oil well	RFX	section of reef
OILW	oil well	RGN	region (large area recognized as an entity by reason of the unity of its history, people, landscape, or other condition or a combination of conditions)
PAL	palace	RKSL	rocks on land (boulders, pinnacles, crags, or other rocks or rock outcrop situated on land)
PASS	pass (way over, through, or between mountains or other high land)	RKSW	rocks in water
PCLI	independent political entity	RKW	rock in water (individual rock of such character and importance as to be identified by name, situated either above or below the surface of a body of water; often associated with reefs but separately named)
PEN	peninsula (area of land projecting into and largely, but not entirely, surrounded by water)	ROAD	road
PLN	plain (landform of low relief, slope, and elevation); flood plain (place where a stream overflows and deposits sedimentary materials, commonly in its lower course before it reaches the sea or other water body)	RSV	reservoir (artificially impounded body of water)
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)	RUIN	ruin(s); ruined village (structure(s) in a state of ruin, but not necessarily of great antiquity or archeological interest)
PMPO	oil-pumping station	SAND	sand area (includes large tracts of desert sand not in the form of dunes)
PP	police post	SBKH	sabkha (salt-impregnated ground without vegetation, intermittently wet from rainfall or seepage; slippery when wet, salt-encrusted when dry; occurs in depressions and along low coastlines)
PPL	populated place (city, town, village, settlement)	SCRP	escarpment (more or less continuous line of cliffs or steep slopes facing in one direction, caused by differential erosion or faulting or both)
PPLQ	abandoned populated place	SHOL	shoal (an offshore hazard to navigation with a least depth of 20 meters [or 10 fathoms] or less, composed of unconsolidated material)
PPLX	section of populated place (part of a city or contiguous urbanized area named as an entity but having no known administrative status)		
PROM	promontory (piece of an area of high, generally flat land jutting into surrounding lower land; similar to a headland except for its inland location)		
PRT	port (place where water-borne cargo is transferred to and from ships, including facilities for berthing ships and handling cargo)		

SINK sinkhole (hole, cavern, or funnel-shaped cavity made in the Earth by the action of water on the soil, rock, or underlying strata)

SPIT spit (projecting tongue of beach material deposited by a coastal current)

SPNG spring

SPNU undersea spring (fresh water submarine spring)

SPUR spur (sloping ridge extending from a mountain or other elevation)

STNM meteorological station

TMB tomb

TOWR tower

TRB tribal area

TREE trees

TRGD interdune trough (elongated corridor between parallel dunes)

TRIG triangulation station (point on the Earth whose position has been determined by triangulation—sometimes shortened to “trig point”)

TRMO oil pipeline terminal

WAD wadi (watercourse or drainageway that carries only occasional flows of water)

WADM wadi mouth

WADS wadies

WADX section of wadi

WLL well (dug or drilled source of water)

WLLQ disused well

WLLS wells

WTRH waterhole; rainpool(s) (low place where water accumulates temporarily following rains)

mouths or lower ends of wadies, at the summits of mountains and hills, at the extremities of capes and points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column is the first-order administrative division and/or country in which the place or feature is located as explained below:

41540 UNITED ARAB EMIRATES  
(General, and for features in more than one division)

41541 Abū Zāby

41542 Al Fujayrah

41543 Ash Shāriqah

41544 Dubayy

41545 Ra’s al Khaymah

41546 ‘Ajmān

41547 Umm al Qaywayn

41599 Islands of disputed sovereignty between U.A.E. and Iran

41550 BAHRAIN  
Six municipalities are the only known administrative units within Bahrain. No material defining the limits of these areas was available and no subdivision numbers were assigned.

41560 KUWAIT  
Although three first-order administrative division names are approved in Kuwait, the lack of documented interprovincial boundaries precluded the use of a subdivision numbering system in the area. The number 41599 is used to identify several islands of disputed sovereignty between Kuwait and Saudi Arabia.

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the

41590 QATAR  
 There are no known administrative sub-  
 divisions in Qatar.

Glossary of generic terms

The following terms occur as the generic parts of standard names in the gazetteer. The English term or terms which correspond to each local term were applied after objective study of cartographic and other source materials, and do not necessarily reflect dictionary or other normalized usages.

ābār . . . . . wells  
 abraḡ . . . . . escarpment  
 aflāj . . . . . underground irrigation canal  
 'aḡabat . . . . . pass  
 'araj . . . . . depression  
 'awjat . . . . . wadi bend  
 'ayn . . . . . spring, well  
 baḡr . . . . . bay  
 baḡrat . . . . . well  
 banāyā . . . . . dunes  
 bandar . . . . . anchorage, bay, cove, harbor  
 barqat . . . . . dunc(s), hill, rocks on land  
 baḡḡā' . . . . . plain, wadi  
 bāḡin . . . . . depression  
 baḡn . . . . . depression, wadi  
 bid'(at) . . . . . well  
 bi'r . . . . . disused well, well  
 birkat . . . . . waterhole, well  
 buday' . . . . . well  
 burj . . . . . fort  
 buḡayn . . . . . depression  
 dāḡhir . . . . . hill  
 daḡl . . . . . sinkhole  
 darb . . . . . road  
 dawḡat . . . . . bay, bight, cove, inlet  
 dawlat . . . . . independent political entity

dil' . . . . . escarpment  
 ḡulay'(āt) . . . . . hill(s)  
 fajj . . . . . pass  
 falaḡ . . . . . underground irrigation canal  
 farīḡ . . . . . camp  
 faḡt . . . . . island, reef(s), section of reef, shoal  
 ḡhaḡā' . . . . . interdune trough  
 ḡhadīr . . . . . depression, interdune trough, well  
 ḡhaḡfāt . . . . . dunes, hill, sand area  
 ḡhalīl(at) . . . . . wadi, wadi mouth  
 ḡhubbat . . . . . bay, bight  
 ḡhulayyīl . . . . . wadi  
 ḡhuyūḡ . . . . . depression  
 ḡabl . . . . . dunc(s), sand area  
 ḡadabat . . . . . interdune trough, sand area  
 ḡaḡbat . . . . . hill  
 ḡadd . . . . . shoal, spit  
 ḡalat . . . . . island, reef, rocks in water  
 ḡajm . . . . . hill  
 ḡaḡl . . . . . oilfield  
 ḡasy . . . . . well  
 ḡazm . . . . . dunes, hill, ridge  
 ḡiḡn . . . . . fort  
 ḡisū . . . . . waterhole  
 ḡufayr . . . . . well  
 'idd . . . . . well  
 imshāsh . . . . . well  
 'irq . . . . . dunes  
 jabal . . . . . escarpment, hill, mountain(s),  
 plateau, ridge  
 jāl . . . . . escarpment, ridge  
 jaww . . . . . depression, interdune trough  
 jazā'ir . . . . . islands  
 jazīrat . . . . . island  
 jūn . . . . . bay  
 kasr . . . . . reef  
 kawkab . . . . . undersea spring  
 khabāri . . . . . rainpools

khadrat . . . . .	depression, rainpool, waterhole, well(s)	qiṭ'atayn . . . . .	rocks in water
khaddat . . . . .	hill	qulal . . . . .	hill
khaliġ . . . . .	bight, gulf	qulbān . . . . .	wells
kharaġ . . . . .	well	qullat . . . . .	plain
khariġat . . . . .	well	qūr . . . . .	mountain
kharmat . . . . .	depression, interdune trough, hill	qurayn . . . . .	hill(s)
khashm . . . . .	hill, spur	qurūn . . . . .	dunes, hill(s)
khaṭm(at) . . . . .	dunes, hill, ridge	radīfat . . . . .	rainpool
khawr . . . . .	bay, bight, cove, depression, entrance, inlet, lagoon, marine channel, wadi, well	raml(at) . . . . .	dune(s), sand area
luqmat . . . . .	pass	ra's . . . . .	cape, point, promontory, section of reef, spit
mamlahat . . . . .	sabkha	rawḍat . . . . .	depression, well(s)
mamlakah . . . . .	independent political entity	ruġm . . . . .	cairn
maydān . . . . .	oilfield	rumayl . . . . .	sand area
nūnā' . . . . .	port	ruqayyat . . . . .	well
mughayl . . . . .	depression, well	ruqq . . . . .	shoal
mughayyil . . . . .	well	sabkhat . . . . .	depression, interdune trough, sabkha
muḥāfaẓat . . . . .	first-order administrative division	sāhil . . . . .	plain
mushāsh . . . . .	well(s)	sayḥ . . . . .	depression, interdune trough, plain, wadi
nadd . . . . .	dune, hill	sayl . . . . .	flood plain
najd . . . . .	pass	sha'ib . . . . .	wadi
nakhl . . . . .	cultivated area, palm grove	shaqq(at) . . . . .	interdune trough
naqā . . . . .	dune(s), sand area	shī'bat . . . . .	reef, wadi(es)
niqyān . . . . .	dunes	shu'bat . . . . .	wadi
nuqayy . . . . .	dune	sifat . . . . .	cove
qā' . . . . .	depression	sīḥ . . . . .	interdune trough
qal'at . . . . .	fort	suddat . . . . .	dunes
qalīb . . . . .	rainpool, well	suhūl . . . . .	plain
qar'ah . . . . .	hill	tall . . . . .	hill
qāriḥat . . . . .	disused well, waterhole, well	ṭawār . . . . .	hill
qarn . . . . .	dune(s), hill, mountain, rocks on land	ṭawī . . . . .	well(s), disused well
qaṣr . . . . .	fort, palace	thamīlat . . . . .	rainpool, waterhole, wells
qaṣṣār . . . . .	island	thuqbat . . . . .	well
qilālat . . . . .	hill	ṭi's . . . . .	dune, hill
qiṭ'at . . . . .	reef	tur'at . . . . .	marine channel
		ṭuwayyir . . . . .	hill

'udayri' . . . . .	hill
'uqlat . . . . .	well(s)
'urūq . . . . .	dunes
'uwaynat . . . . .	well
wādī . . . . .	depression, interdune trough, section of wadi, wadi
wudayy . . . . .	wadi
wuqnat . . . . .	depression
yahfar . . . . .	well
zahrāt . . . . .	dunes

Reporting of errors

It is requested that all who use this gazetteer aid in its

correction for future printings by error and name changes including, if possible, the source of the correct information to:

Executive Secretary  
U.S. Board on Geographic Names  
Department of the Interior  
Washington, D.C. 20240

or

Director  
Defense Mapping Agency Topographic Center  
ATTN: Geographic Names Division, Code 50400  
Washington, D.C. 20315

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.

TRANSLITERATION SYSTEM FOR ARABIC GEOGRAPHIC NAMES

BGN/PCGN 1956 System (Revised in 1972)

The BGN/PCGN 1956 System for the Arabic alphabet is designed for use in transliterating standard written Arabic. It was adopted by the BGN in 1946 and by the PCGN in 1956 and has been applied by the Board, so far as practicable, to the systematic romanization of geographic names in Syria, Lebanon, Jordan, Iraq, the Arabian Peninsula, the United Arab Republic (Egypt), Libya, the Sudan, and Tunisia.

The system is designed to bring about uniformity in the spelling of geographic names in Arabic-language areas by eliminating deviations resulting from pronunciation differences in various dialects, except as stated in the special rules.

In contrast to several other languages, uniform results in the transliteration of Arabic are difficult to obtain, since vowel points and some of the diacritical marks necessary for the certain identification of the Arabic words are almost always omitted from both handwritten and printed Arabic. It follows that the transliterator must be able to identify the

words used in the names and must know their standard written Arabic spelling, their proper vowel pointing, and how to eliminate peculiarities resulting from dialectal variation. The problem is complicated in most Arabic-language areas by the fact that a large proportion of the geographic names are not available in the Arabic alphabet. This applies to Arabic names as well as to those of non-Arabic origin. Even when Arabic script is available it is not always possible to determine the proper vowel pointing from dictionaries and other reference tools.

The transliteration of the Arabic consonants, vowels, and diphthongs, with examples of the application to geographic names, is given in the tables. *Hamzah*, often omitted in such tables, is included in its logical position before *alif* as a consonant in order to avoid any question as to its proper treatment.

The notes and special rules explain details of transliteration not stated in the tables.

TRANSLITERATION SYSTEM FOR ARABIC GEOGRAPHIC NAMES

TABLE I

TRANSLITERATION OF THE ARABIC CONSONANTS

(Only the isolated forms of the letters are given; see any Arabic grammar or standard reference work for the combining forms in initial, medial, and final positions and for consonant ligatures.)

ARABIC LETTER	NAME OF LETTER	TRANSLITERATION	EXAMPLES AND REMARKS
ء	hamzah	omit (initial) ' (medial) ' (final)	ابوكمال Abū Kamāl بئر زيت Bi'r Zayt. See note 1. صنعاء Ṣan'ā'
ا	alif	omit	أم العمد Umm al 'Amad. See note 2.
ب	bā'	b	البحرين Al Baḥrayn
ت	tā'	t	الكويت Al Kūt. The combination of tā' with bā' can be rendered as t/h for bibliographical purposes. See notes 3 and 4.
ث	thā'	th	الثليوات Ath Thulaythuwāt. See remarks on tā'.
ج	jīm	j	الجزيرة Al Jazīrah
ح	ḥā'	ḥ	المحمودية Al Maḥmūdīyah. See note 5.
خ	khā'	kh	خيبر Khaybar. See remark on kāf.
د	dāl	d	دمنهور Damanhūr. The combination of dāl with bā' can be rendered as d/h for bibliographical purposes. See note 4.

TABLE I (Continued)

ARABIC LETTER	NAME OF LETTER	TRANSLITERATION	EXAMPLES AND REMARKS
ذ	dhāl	dh	وادي الذهب Wādī adh Dhahab. See remark on <i>dāl</i> .
ر	rā'	r	الروضة Ar Rawḍah
ز	zāy	z	الزاوية Az Zāwiyah
س	sīn	s	سليمانية Sulaymānīyah. The combination of <i>sīn</i> with <i>bā'</i> can be rendered as <i>s/h</i> for bibliographical purposes. See note 4.
ش	shīn	sh	الشام Ash Shām. See remark on <i>sīn</i> .
ص	ṣād	ṣ	قيصومة Qayṣūmah. See note 5.
ض	ḍād	ḍ	ضور Ḍawr. See note 5
ط	ṭā'	ṭ	القنيطرة Al Qunayṭirah. See note 5.
ظ	ẓā'	ẓ	ابوظبي Abū Ḍaby. See note 5.
ع	'ayn	'	ابوعريش Abū 'Arīsh. This is a raised turned comma.
غ	ghayn	gh	بغداد Baghdād
ف	fā'	f	الفرات Al Furāt
ق	qāf	q	قطر Qaṭar
ك	kāf	k	الكويت Al Kuwayt. The combination of <i>kāf</i> with <i>bā'</i> can be rendered as <i>k/h</i> for bibliographical purposes. See note 4.

TABLE I (Continued)

ARABIC LETTER	NAME OF LETTER	TRANSLITERATION	EXAMPLES AND REMARKS
ل	lām	l	حلب Halab
م	mīm	m	مكة Makkah
ن	nūn	n	نخل Nakhīl
هـ	hā'	h	جبل هارون Jabal Hārūn. See remarks on tā', dāl, sīn, kāf; see also notes 3 and 4.
و	wāw	w	وادي موسى Wādī Mūsá
ي	yā'	y	اليمن Al Yaman. See notes 1 and 6.

NOTES

1. *Hamzah* is written in Arabic over all initial *alifs* except those which belong to the definite article *al* or bear a *maddah* (see note 10). When the purpose is to indicate the presence of the sound described as a glottal stop, it is written over internal and final *alif*, *wāw*, and *yā'* (without dots). *Hamzah* following *i* is written ء (almost always the *yā'* is in the ي or ـي form) and the dots are omitted. Example: بشر. *Hamzah* following *u* is written ؤ. *Hamzah* following a long vowel is written ؤ without anything under it ("without a bearer"). The transliteration of *hamzah* (') should always be carefully distinguished from that of *'ayn* (ʿ).
2. *Alif* as such is not transliterated when it is bearer of *hamzah*, but see *fathah alif* and *alif maddah* in Table II. See also note 1 above and note 10.
3. An original *tā'* in certain endings is written ٔ (i.e., *bā'* with two dots) and is called *tā' marbūʿah*. It is transliterated h (silent), except when followed by another word in a unitary expression, when it is transliterated t, as in *hamzah* (isolated form) and *hamzat al wasl*. A pronounced final *bā'* occurs and for bibliographical purposes may be transliterated /h when a *fathah* precedes it (Al Marāʿah). Cf. also note 4.
4. The two-letter symbols th, kh, dh, sh, and gh are convenient for use and easily comprehensible. The infrequent sequences of t, k, d, or s followed by h can be unequivocally transliterated for bibliographical purposes by the use of a slant line ("shilling," "solidus") to separate true h from a preceding t, k, d, or s; that is, th represents *thā'*, but t/h stands for *tā'* followed by *bā'*. Cf. also note 3.

NOTES

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>7. The classical Arabic grammatical endings written with the so-called nunation symbols (Arabic <i>tanwīn</i>) may be transliterated when necessary by a<sup>n</sup>, i<sup>n</sup>, u<sup>n</sup>. In modern Arabic these endings have become silent and are omitted in transliteration: classical <i>alif</i>/<i>u</i><sup>n</sup>, modern <i>alif</i>.</p> <p>8. Doubled consonant sounds are written in Arabic by placing the <i>tashdīd</i> over the consonant letter written once. In transliteration the letter should be doubled. When the definite article <i>al</i> precedes a word beginning with t, th, d, dh, r, s, sh, ṣ, ḍ, ṭ, ḡ, l, n (the so-called "sun letters"), the l is assimilated in pronunciation, giving tt, thth, etc.</p> | <p>In transliteration this l should be omitted and the following letter written twice, once after the a of the article and secondly at the beginning of the next word. Example: An Nīl, not Al Nīl.</p> <p>9. <i>Hamzat al waṣl</i> is transliterated ' in classical forms, as illustrated in its classical name <i>hamzatu 'l waṣli</i>, but ignored in modern forms, as in <i>hamzat al waṣl</i>.</p> <p>10. <i>Maddah</i> is a horizontal wavy line over <i>alif</i>. Since <i>maddah</i> nearly always occurs in word-initial position, no confusion results from the use of ā for <i>alif maddah</i> as well as for <i>fatḥah alif</i>.</p> |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

SPECIAL RULES

The following notes explain details of transliteration not stated above.

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1. Initial definite articles and prepositions should be capitalized and hyphens should not be used to connect parts of names; e.g., Ash Shāriqah and Tall al Laḥm.</p> <p>2. If any evidence is found for the use of the definite article in a name, the article will be used in the name chosen.</p> <p>3. The Arabic word for God will be written Allāh.</p> <p>4. Phrase names, commonly transcribed as one word, will be written in separate words. The definite article within such names will be written al, not ul; e.g., 'Abd Allāh, 'Abd ar Raḥmān, Dhū al Faḡār.</p> <p>5. The word Ibn will be transliterated Bin wherever written, without <i>alif</i>, that is, between two proper nouns; e.g., 'Umar Bin al Khaṭṭāb.</p> <p>6. The Turkish word Paşa will be transliterated directly from Arabic script as Bāshā; the Turkish word Bey will be romanized as Bey in Egyptian names, no matter how written in Arabic-language sources, but in other Arabic areas as Bak where</p> | <p>written <i>bā'</i>-<i>kāf</i> and as Bayk where written <i>bā'</i>-<i>yā'</i>-<i>kāf</i>.</p> <p>7. The modern colloquial word Sīdī will be given precedence over the classical form Sayyidī. (This does not preclude the spelling Sayyidī if the latter is indicated by the Arabic script or other evidence - for instance if the <i>yā'</i> is written with <i>tashdīd</i>.)</p> <p>8. The colloquial word Bū will not be changed to the classical form Abū.</p> <p>9. The colloquial word for water written <i>mīm</i>-<i>yā'</i>-<i>tā'</i> on Arabic maps will be transliterated Mayyat.</p> <p>10. In place names of Aramaic origin in Lebanon and Syria with an initial cluster beginning with b plus another consonant such as l or h, initial clusters such as bl and bh will be written.</p> <p>11. In names containing the words for "back, ridge, hill" appearing as either <i>zā'</i>-<i>bā'</i>-<i>rā'</i> or <i>ḡād</i>-<i>bā'</i>-<i>rā'</i> in Arabic sources, the spelling used in the sources will be followed.</p> |
