CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

April 1956

This Gazetteer is issued as a standard component of the National Intelligence Survey for British Honduras and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 2,000 entries for places and features in British Honduras. The entries include approved standard names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this list supersede those in all previous Board lists for the area.

The scale of map coverage is generally about 1:50,000.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the approved names by use of the word "see." Where part of a standard name is underlined, the use of the nonunderlined part is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that consist of specific and other elements are regularly alphabetized by specific part; thus Bahía de Amatique is listed as Amatique, Bahía de. However, names that include generic terms rare in British Honduras, such as Ben and Serró (Ben Lomond and Serró Blanco, hills), are left in normal order, not reversed. The acute accent (as in the word Bahía) is to be used whether the name is printed in all capitals or in a combination of capital and lowercase letters.

Designation.—The second column contains designations or abbreviations of designations, as follows:

AGR	agricultural reservation	LCTY	locality
AREA	area	LNDG	landing
BAR	bar	MT	mountain
BAY	bay	MTS	mountains
BIGHT	bight	PEAK	peak
CAMP	camp	PENL	prison farm

ISL	island, key	VAL	valley
ISLS	islands, keys		
LAGN	lagoon		
LAKE	lake, lake region		

Latitude and longitude.—Coordinates, in the third and fourth columns, are for finding purposes only. They were read to the nearest minute.

Administrative division.--The number in the fifth column, 712, is the area number assigned to British Honduras.

Locational reference.--The number in the last column indicates a map or chart where the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

- 01 *British Honduras 1:50,000*, Survey Department, Belize, 1945-52.
- 02 *Atlas of British Honduras, 1939*, Survey Department, Belize; scale 1:253,440. Indexed.
- 03 [British Admiralty charts], Hydrographic Department, Admiralty, London.

The code 00 is used for cross-references and for standard names to be found only on references other than those listed above.

Glossary of generic terms

The following terms occur in the standard names listed in the gazetteer. Each of the meanings given applies in the case of one or more of the names.

bahía	bay	punta	point
boca	channel	rio	river, stream
crique	creek, stream	zibal	lake
laguna	lagoon, lake		

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Interior Department Building, Washington 25, D. C. A statement of the source of the correct information will be helpful.

Other gazetteers

The following publications may be useful as finding lists, though the names in them are not necessarily those approved by the Board as standard names:
