

NATIONAL FOREIGN INTELLIGENCE BOARD

IC/82/3358  
2 March 1982

MEMORANDUM FOR: Robert Gates  
Deputy Director for Intelligence

FROM : Walter Elder  
Executive Secretary

SUBJECT : Proposed DCI Directive on Intelligence Production

1. I have considered the possible advantages and disadvantages of a broad DCI directive on intelligence production and have concluded that there are a considerable number of potential disadvantages in trying to concoct such a document. I can't think of any advantages, but I'm sure you can and will convey them to me.

2. In the meantime, I suggest that in due course we quietly rescind NSCID 3 and let the matter rest.

3. Your comments, please.

WALTER ELDER
