CHARTER

PRC SCIENCE AND TECHNOLOGY WORKING GROUP

I. PURPOSE

The PRC S&T Working Group is established to advise the STIC on issues in China's development of science and technology which require Community attention and to propose specific studies in those areas to the STIC. In addition, the PRC S&T Working Group will serve as a forum for analyst interaction and a Community framework to discuss or resolve critical issues.

II. TASKING

The China S&T Working Group will receive its tasking by memorandum from the STIC. Each task will describe the required action and will establish a deadline for product submission to the STIC.

III. MEMBERSHIP

The China S&T Working Group will be made up of, but not limited to, representatives from those organizations which hold membership on the STIC. Working Group nominees will be submitted by STIC members and selected by the Chairman of the STIC.
