Preface

*Information available
as of 15 March 1985
was used in this report*

This handbook, which is updated annually to provide data on Communist military transfers and economic aid to less developed countries (LDCs), serves as the Intelligence Community's official data base on these transactions. Annual intelligence assessments on Communist-LDC economic and military relations are issued separately; the assessments for 1984 will be published in the near future.

25X1

The statistics in this handbook update and supersede those in our previous publications. Values of military agreements and deliveries are based on Soviet trade prices, which are quoted in rubles and then converted into US dollars.

25X1

The term *Communist countries* refers to: the USSR, China, Bulgaria, Czechoslovakia, East Germany, Hungary, Poland, Romania, Cuba, North Korea, and Yugoslavia.

25X1

The term *less developed countries* includes: (1) all countries of Africa except the Republic of South Africa; (2) all countries of East Asia except Hong Kong and Japan; (3) Malta, Portugal, and Spain in Europe; (4) all countries in Latin America except Cuba; and (5) all countries in the Middle East and South Asia except Israel. Although Cambodia, Laos, and Vietnam have been Communist countries since 1975, data prior to this date are included in this compendium for historical purposes.

25X1

Assistance is considered to have been extended when accords are initialed and constitute a formal declaration of intent. For economic aid, credits with repayment terms of five years or more are included. Where terms are known, the credits are designated as "trade credits" if amortization is less than 10 years. For military transactions, all sales are included—whether for cash or provided under credits or grants. The term *drawings* refers to the delivery of goods or the use of services.

25X1

As to individual table entries, the term *NEGL* refers to a value of less than \$500,000; *NA* indicates an agreement was signed, but the value was not known; two dots (.) indicate we have no information and presume the value is 0.

Until 1975 the annual review of Communist military and economic aid activities was covered in the R-14 report series, *Aid and Trade Activities of Communist Countries in Less Developed Areas of the Free World*, prepared under the aegis of the Subcommittee on International Trade and Aid of the Economic Intelligence Committee, USIB. The subcommittee was abolished on 1 October 1974.

a. Values of military agreements and deliveries are based on Communist donor export prices and are adjusted for changes in the dollar value of the currencies denominated in foreign trade transactions. In cases where actual values are not known, Soviet export prices of similar equipment are used as surrogates. As a result of a new study -- completed in early 1980 -- showing a marked, across-the-board rise in export prices for Soviet equipment sold to LDCs since 1973, the figures for 1974-79 were revalued in the 1979 publication to reflect the higher export charges and new estimates of sales volume.

b. Excluding Cuban, North Korean and Yugoslav agreements totaling \$6.9 billion and deliveries totaling \$5.4 billion.

c. Of this total \$68 million was delivered on Soviet account under the Soviet-Libyan arms accord of 1974.

d. Excluding \$151 million of Soviet commitments and \$1 million of Romanian commitments to Angola, both made before independence in November 1975. The USSR recommitted \$59 million of the original amount in March 1976 when the Neto regime assumed power.

a. When actual agreement values are not reported, minimum totals are derived by costing (at current US dollar list prices) the equipment ordered under the agreement; where equipment details are lacking, agreement estimates are based on available information on the magnitude of the contract. The estimated value does not include credits for construction of military installations and airfields, which in some cases may be carried under economic assistance arrangements. The values for most agreements signed after 1971 have been revised periodically to reflect new price and volume information, and the changed dollar value of foreign denominated trade currencies.

b. Cash payments include downpayments required at contract signing or cash for commercial sales. These numbers are minimum estimates. Since October 1973, a large portion of middle Eastern arms supplies are being financed by Arab oil producers.

c. Includes outright gifts as well as discounts from list prices.

d. Minimum estimate.

e. Excluded are \$1 million of Romanian aid and \$151 million of Soviet aid committed in 1975 prior to Angola's independence. Of the 1975 Soviet agreements, \$59 million was recommitted after independence in 1976.
