- (c) there will be a multiplicity of options available with respect to the use of such resources;

"continental shelf" means the continental shelf appertaining to The Bahamas, that is to say, the seabed and subsoil of the submarine areas adjacent to the coasts, but outside the territorial sea of The Bahamas, to a depth of two hundred metres or, beyond that limit, to where the depth of the superjacent waters admits of the exploitation of the natural resources of the said areas;

"court" means magistrate's court;

- (b) any fishing for such stocks;

"fishery resource" means fish of any kind found in the sea (other than species of tuna, which in the course of their life cycle, spawn and migrate over great distances in waters of the ocean) and includes living organisms belonging to sedentary species, that is to say, organisms which, at the harvestable stage, either are immobile or under the seabed or are unable to move except in constant physical contact with the seabed or the subsoil of the continental shelf;

"fishing" means the catching, taking or harvesting of any fishery resource or any other activity which can be reasonably expected to result in the catching, taking or harvesting of such fishery resource;

"fishing vessel" or "vessel" means any vessel or boat, of whatever size for the time being employed by any person in fishing operations or any operations ancillary thereto;

"foreign fishing" means fishing by a vessel other than a vessel owned by a Bahamian;

"miles" means international nautical miles of 1,852 meters;

"optimum yield" means the amount of fishery resources —

(2) The Minister may, by notice published in the *Gazette*, declare any species of living organism to be a fishery resource for the purposes of this Act.

3. Every officer of the revenue, every peace officer and every officer of the Department of Agriculture and Fisheries appointed for the purpose by the Minister by instrument in writing shall be a fisheries inspector for the purpose of this Act and shall have and may exercise the functions assigned to a fisheries inspector by or under this Act.

Fisheries inspectors

4. There is established for the purposes of this Act a zone to be known as the exclusive fishery zone of The Bahamas.

Establishment of exclusive fishery zone.

5. The outer boundary of the exclusive fishery zone is a line drawn in such a manner that each point on it is two hundred miles from the baseline from which the territorial sea is measured:

Limits of exclusive fishery zone.

Provided that where the distance between that baseline and the territorial sea or the exclusive fishery zone of a neighbouring state is less than two hundred miles the provisions of section 11 shall apply to the determination of the outer boundary of the exclusive fishery zone.

6.—(1) Within the exclusive fishery zone, The Bahamas has sovereign rights and exclusive authority for the purpose of exploring and exploiting, conserving and managing the fishery resources of the seabed and subsoil and superjacent waters.

Legal character of the exclusive fishery zone.

(2) The superjacent waters of the exclusive fishery zone outside the territorial sea of The Bahamas and beyond any foreign state's territorial sea, to the extent that such sea is recognised by The Bahamas, remain subject to the regime of the high seas for all purposes other than for the purposes of exploration and exploitation, conservation and management of the fishery resources or other than purposes with respect to which coastal states are accorded by international law exclusive jurisdiction.

Foreign fishing

7. No foreign fishing is authorised within the exclusive fishery zone for any fishery resource in respect of which The Bahamas exercises the sovereignty and authority specified in section 6 unless such foreign fishing —

- (a) is authorized by virtue of a treaty to which The Bahamas is a party and such treaty is made subject to sections 8 and 10 and is conducted under and in accordance with a valid licence granted by the Minister under section 9;
- (b) is authorized by the Minister and is conducted by a vessel owned or operated by an international organization of which The Bahamas is a member;
- (c) is authorized by the Minister and is conducted for scientific or research purposes under the authority of and in accordance with the terms and conditions of a permit in that behalf granted by the Minister to the person operating the vessel;
- (d) is conducted for sporting purposes in accordance with any regulations made under this Act, by a vessel which has first made entry in respect of the voyage on which it is engaged at a port of entry in The Bahamas or by a vessel which has been imported into The Bahamas or constructed in The Bahamas.

Fishery treaty

8. Foreign fishing may be conducted pursuant to a fishery treaty if such treaty satisfies the requirements of this Act and includes as conditions of the treaty —

- (a) that the foreign state acknowledges the exclusive fishery conservation and management authority of The Bahamas as set forth in this Act;
- (b) the foreign state and the owner or operator of any fishing vessel fishing pursuant to such treaty will abide by the terms of the treaty, the provisions of this Act and any regulations made thereunder;
- (c) the foreign state and the owner or operator of any fishing vessel fishing pursuant to such treaty will permit fisheries inspectors to enforce the provisions of this Act and any regulations made thereunder by allowing such inspectors to board and search or inspect any fishing vessel of the foreign state when it is within the exclusive fishery zone and to make arrests and seizures whenever such officers have reasonable cause to believe as a result of such search or inspection that any such vessel or any person thereon has committed a breach of this Act or any regulations made thereunder.

9. - (1) Every foreign state with which The Bahamas has entered into a fishery treaty shall submit an application for a licence to the Minister before the 1st day of January of each year in respect of every fishing vessel wishing to fish in the exclusive fishery zone.

(2) Every application for a licence under this section shall be in such form as the Minister may prescribe and shall specify —

- (a) the name and official registration number or other identification of each vessel for which a licence is sought;
- (b) the name, address and nationality of the owner of each vessel;
- (c) the tonnage, capacity, speed, processing equipment, type and quantity of fishing gear, and such other information with respect to the fishing characteristics of each vessel as the Minister may require;
- (d) the description of each fishery resource for which each vessel wishes to fish;
- (e) the quantities of fish or tonnage of catch contemplated for each vessel during the time such licence is in force;
- (f) the area of the exclusive fishery zone in which, and the season or period during which, such fishing will be conducted.

(3) Subject to subsections (4) and (5), where the Minister decides to grant a licence he shall grant the licence to the owner or operator in respect of a named vessel in accordance with —

- (a) the provisions of this Act and the regulations made thereunder;
- (b) the terms and conditions of the relevant fishery treaty; and
- (c) the principles and conditions set forth in section 10.

(4) A licence may contain such conditions and restrictions as appear to the Minister granting the licence to be necessary or expedient for regulating the conservation and management of the fishery resources of The Bahamas and in particular a licence shall contain conditions and restrictions —

- (a) as to the requirements of any applicable fishery management plan and any regulations made to implement any such plan;
- (b) as to the requirement that no licence may be used by any vessel other than the vessel in respect of which it is granted;

6

(c) as to any requirement provided for in the relevant fishery treaty;

(d) as to the requirements that the vessel shall fish only in the area of the exclusive fishery zone for which the licence is granted and at the seasons and periods indicated; and that the vessel shall not engage while in the exclusive fishery zone in any of the acts of cutting up, canning or packaging of any fishery resource except in the said area.

(5) A licence may not be granted to any vessel the owner or operator of which is not a national of the foreign state which is a party to the fishery treaty.

(6) A licence shall be prominently displayed at all times in the wheel-house of the vessel while the vessel is in the exclusive fishery zone and the number of the licence shall be painted on the vessel in such manner as the Minister may prescribe.

(7) A licence may be revoked or suspended in any case where the Minister is satisfied that there is a breach of the terms and conditions of a fishery treaty or the conditions and restrictions of the licence.

Fishery con-  
servation and  
management  
principles  
and conditions.

10.--(1) The Governor-General may from time to time determine the optimum yield of the fishery resources of the exclusive fishery zone; in making that determination the Governor-General shall take into account the need to ensure, through proper conservation and management measures, the maintenance of these resources or the restoration of populations of harvested species at levels which can produce the maximum sustainable yield. In particular, he shall take into account relevant environmental and economic factors, including the economic needs of coastal fishing communities and the special requirements of the development of The Bahamas, fishing patterns, the inter-dependence of stocks and any generally recommended subregional, regional or global minimum standards, and the effects on species associated with or dependent upon harvested species.

(2) The Governor-General may from time to time determine the capacity of the fishing industry of The Bahamas to harvest the fishery resources of the exclusive fishery zone.

(3) The difference between the optimum yield and the maximum capacity of the fishing industry of The Bahamas as may be determined by the Governor-General in accordance with subsections (1) and (2) may be the allowable level of foreign fishing.

(4) An allocation to a foreign state of part of the total allowable level of foreign fishing as determined by the Governor-General may only be made in accordance with the condition that the

foreign state concerned enters into a fishery treaty with The Bahamas in which there is specified —

- (a) the proportion of the total allowable level of foreign fishing to be allocated to that foreign state, taking into account the extent to which fishermen of that foreign state have traditionally engaged in fishing activity in the fishery concerned;
- (b) the number, identification and characteristics of the fishing vessels of that foreign state which are to be granted licences to fish in the exclusive fishery zone;
- (c) that the fishing vessels of that foreign state will comply with the regulations made under this Act for the conservation and management of the fishery resources of The Bahamas;
- (d) that access to the market of that foreign state shall be granted for the fishery resources and fishery products harvested by the fishermen of The Bahamas in the exclusive fishery zone;
- (e) that that foreign state will extend substantially the same fishing privileges to fishing vessels owned by Bahamians as The Bahamas extends to the fishing vessels owned by citizens of that foreign state.

(5) For the purpose of subsections (1), (2) and (3), "the exclusive fishery zone" means that part of the waters thereof the inner boundary of which is a line drawn in such a manner that each point on it is twelve miles from the baseline from which the territorial sea is measured.

11.—(1) Subject to subsection (3), where the exclusive fishery zone of The Bahamas meets the limits of the territorial sea, continental shelf or exclusive fishery zone of a neighbouring state, to the extent only to which such limits are recognized by The Bahamas to be validly established pursuant to international law, the Governor-General may initiate and conduct negotiations with that state to establish the boundary of the exclusive fishery zone in relation to the territorial sea, continental shelf or exclusive fishery zone of that state.

(2) In the absence of agreement on the boundary of the exclusive fishery zone with the territorial sea, continental shelf or exclusive fishery zone of a neighbouring state, the following shall be the limits of the exclusive fishery zone —

- (a) in the case of the fishery resources of the waters of the exclusive fishery zone, a line every point of which is twelve miles distant from the baseline from which the territorial sea of that state is drawn;

(b) in the case of the fishery resources of the seabed and subsoil —

(i) where there is a continuous continental shelf between The Bahamas and the neighbouring state, a line every point of which is equidistant from the edge of the Great and Little Bahama Banks and the baselines from which the territorial sea limits of that state are drawn, and, in areas other than the Great and Little Bahama Banks, a line every point of which is equidistant from the baselines respectively from which the territorial sea limits of The Bahamas and that state are drawn;

(ii) where there is not a continuous continental shelf between The Bahamas and the neighbouring state, the limits of the continental shelf of that state shall be as determined by international law:

Provided, however, that in contemplation of such agreement being reached the Governor-General may by order fix another limit temporarily or by interim agreement with the neighbouring state.

(3) The Governor-General in the exercise of his powers under this section shall take into account that The Bahamas has long exercised sovereignty over, and enjoys exclusive authority for the purposes of exploring and exploiting, conserving and managing of, the Great and Little Bahama Banks.

Power to declare protected areas

12.—(1) The Minister may by order declare any area of the waters within the exclusive fishery zone whether alone or together with any area of land adjacent to such waters to be a protected area for the purposes of this Act.

(2) Any order made under this section may prohibit fishing for any fishery resource whatever or for any fishery resource specified in the order, by any person otherwise than under the authority of and in accordance with the terms and conditions of a permit in that behalf granted to that person for that purpose.

(3) Any person who takes any fishery resource in a protected area in contravention of the provisions of any order made under this section in respect of such area or of any term or condition attached to a permit granted under such an order shall be guilty of an offence and liable upon summary conviction, subject to the provisions of section 21, to a fine of seven hundred and fifty dollars or to imprisonment for a term of six months or to both.

(4) Where any person is found within a protected area in possession of any fishery resource the fishing for which within that area is prohibited by an order made under this section he shall be deemed, until the contrary is proved, to have taken that fishery resource within that area.

13.--(1) A fisheries inspector may at any time stop, go on board and search any fishing vessel within the exclusive fishery zone, and if he has reason to suspect that any person on board such vessel has contravened any of the provisions of this Act or of any regulations made thereunder he may without summons, warrant or other process seize the vessel and detain it and any person found on board.

Power of seizure, arrest, etc.

(2) A fisheries inspector may at any time without summons, warrant or other process seize and detain any vessel or thing which is liable to forfeiture under this Act or which he has reasonable grounds to believe is so liable.

(3) A fisheries inspector and any person whom he may call to his assistance may arrest and detain without warrant any person whom such inspector has reason to suspect has committed or permitted any offence against this Act.

(4) Any person who resists or obstructs any fisheries inspector in the exercise of any of his powers conferred by this section shall be guilty of an offence and liable upon summary conviction to a fine of five hundred dollars, and such person may be detained by the fisheries inspector.

(5) Where any vessel or thing is seized or detained or any person is detained under this section by a fisheries inspector, the inspector shall take such vessel, thing or person as soon as may be to the nearest or most convenient place in The Bahamas and there deliver it or him into the custody of the most senior police officer.

14. Where on delivering any person into the custody of a police officer in accordance with the provisions of section 13 --

Persons in custody to be brought before magistrate's court or released.

(a) the fisheries inspector or makes a complaint to such officer that such person has committed an offence against this Act, the police officer shall as soon as may be cause such person to be brought before a magistrate's court to be dealt with according to law; or

(b) the fisheries inspector does not make any such complaint, the police officer shall forthwith release such person.

accordance with the provisions of section 13, such vessel or thing shall be detained in the custody of the Commissioner of Police to the order of the Minister at that place or at such other place as the Minister may direct until the same shall be forfeited or released in accordance with the provisions of this section as the case may be.

(2) Any vessel or thing detained under the provisions of subsection (1) shall be released upon demand to the owner or his duly accredited agent —

(a) within the period of seven days next following the date of delivery of the vessel or thing to the police officer, if no proceedings are instituted within the period against the master or other person in charge of the vessel or thing in respect of an offence against this Act; or

(b) in any case where such proceedings are instituted as aforesaid and the vessel or thing is not liable or ordered to be forfeited under the provisions of this Act, upon the final determination of the proceedings and the payment of any fine imposed by the court in such proceedings within the time prescribed by the court for such payment.

(3) Any vessel or thing detained under the provisions of subsection (1) shall be subject to a lien in favour of the Government for the amount of any fine imposed by the court upon the master or other person in charge thereof in any proceedings in respect of an offence against this Act, and if such fine shall not have been paid by the due date for payment thereof the Minister may, at any time thereafter, subject as in this subsection provided, after first serving upon the owner or the master or other person in charge of the vessel or thing at the time of its seizure notice in writing of his intention so to do, sell the vessel or thing by public auction and deduct the amount of the fine or fines unpaid and the expenses incurred in selling the vessel or thing from the proceeds of the sale and pay the balance to the Treasurer, to be held by the Treasurer and paid by him to such person as shall satisfy him that he is entitled thereto:

Provided that if within the period of fourteen days next following the date of service of a notice under this subsection upon the owner, master or other person in charge of a vessel or thing, such owner, master or other person pays to the court the amount of any fine or fines unpaid, and pays to the Minister the amount of any expenses incurred by the Minister in respect of the proposed sale, the Minister shall not offer such vessel or thing for sale but shall release the vessel or thing to such owner, master or other person.

(4) No action shall lie at the suit of any person against the Treasurer in respect of the payment by him in good faith of any

moneys under subsection (3) to any person appearing to him to be entitled to the same.
